

1910-1914

8349-13

ARTICLES OF THE TOWN WARRANT,
MARCH 6, 1911.

Article 1. To choose a moderator to preside in said meeting.

Article 2. To choose all necessary Town Officers and Committees.

The vote for Town Clerk, Treasurer, Collector, Auditor, Selectman, Assessor, Overseer of the Poor, School Committee, Town House Committee, Cemetery Commissioner, Trustees of the Fay Library, Highway Surveyor, Tree Warden and Constables to be on one ballot.

The polls will be open for the election of officers at nine fifteen o'clock in the forenoon and may be closed at two thirty o'clock in the afternoon of said day.

The following officers to be chosen by ballot: Town Clerk, Treasurer, Collector, Auditor, Selectman for three years, Assessor for three years, one member of the School Committee for three years, one Overseer of the Poor for three years, Tree Warden, Highway Surveyor, Three members of the Town House Committee, one Cemetery Commissioner for three years, Constables and seven Trustees of the Fay Library.

Article 3. To vote by ballot Yes or No on granting license for the sale of intoxicating liquors.

Article 4. To hear the reports of Town Officers and Committees and do or act thereon.

Article 5. To raise such sums of money as may be necessary for the legitimate use of the Town and make appropriations of the same.

Article 6. To hear the report of the Trustees of the Fay Library and do or act thereon.

Article 7. To determine the manner of collecting the taxes for the ensuing year or pass any vote respecting the same.

Article 8. To see if the Town will authorize its Treasurer to hire such sums of money as may be necessary for the Town's use, and pass any vote respecting the same.

Article 9. To see if the Town will authorize its Collector to use all means for collecting the taxes which a Town Treasurer may use when appointed Collector.

Article 10. To see what disposition the Town will make of the Dog Money and pass any vote respecting the same.

Article 11. To see if the Town will authorize the Selectmen to defend any suits which may be brought against the Town, and prosecute any suits in behalf of the Town, or do or act thereon.

Article 12. To see what action the Town will take to suppress the illegal sale of intoxicating liquors or pass any vote respecting the same.

Article 13. To see if the Town will appropriate the sum of one hundred dollars to be expended by Post 44, Grand Army of the Republic for defraying the expenses of Memorial Day and decorating and repairing soldiers' graves.

Article 14. To see if the Town will appropriate the sum of fifty dollars to be expended by Post 44, Grand Army of the Republic in accordance with Section 15, Chapter 25 of the Revised Laws and pass any vote respecting the same.

Article 15. To see if the Town will appropriate a sum of money necessary for street lighting and pass any vote respecting the same.

Article 16. To see if the Town will authorize the Selectmen to contract for lighting any street or road not now provided with lights or pass any vote or votes respecting lighting of streets, roads or ways.

Article 17. To hear the report of the Committee appointed to investigate needs of a footway under the

Boston and Albany Rail Road at Southville, and pass any vote respecting said footway or the report of said Committee.

Article 18. To see if the Town will appropriate a sum of money for transporting books from the Fay Library to the Villages of Cordaville and Southville or do or act thereon.

Article 19. To see if the Town will authorize the Selectmen to represent the Town before the General Court in all matters regarding taxation and to employ counsel as may be necessary to protect the interest of the Town or pass any vote respecting the same.

Article 20. To see if the Town will appropriate any sum of money unexpended by any special appropriation of last year, if needed to complete any work or purposes for which such appropriation was made.

Article 21. To see if the Town will authorize the Selectmen to sell the land formerly used for school purposes in District number Five and cause deeds and other papers necessary to convey the same or pass any vote respecting said land.

Article 22. To see if the Town will choose a Committee to investigate the need of a new school building in the South part of the town and if advisable, to procure plans and estimates of probable cost of such building and land, if necessary for the same, or do or act thereon.

Article 23. To see if the Town will grant the free use of the Town House to any of the public schools or to any class of any public school, or pass any vote respecting free use of the Town House or charges for the use of the same.

Article 24. To see if the Town will vote to discontinue a small section of Deerfoot Road at its intersection with Main Street at a point east of and adjoining the Parker house lot of Joseph Burnett estate, or do or act thereon.

Article 25. To see what action the Town will take regarding the claim of John Sealey for alleged damage to

his property by drainage of Newton Street.

Article 26. To see what action the Town will take regarding the claim of C. B. Sawin & Son for alleged damage to their property by drainage of Boston Road.

Article 27. To see what action the Town will take regarding a building in Fayville for the use of Post 44, Grand Army of the Republic, the Fire Department and as a public hall, on a plan to be submitted by the George Wesley Nichols Building Association and to appropriate money for the same.

Article 28. To see if the Town will vote to authorize the Trustees of the Fay Library to establish a branch Library in any of the villages of the town and appropriate a sum of money for the same or do or act thereon.

Article 29. To see if the Town will instruct the Selectmen to employ a caretaker for the swimming pool and pass any vote respecting the same and appropriate a sum of money therefor.

Article 30. To see if the Town will vote to construct sidewalks on any street or road or repair or reconstruct any sidewalks on any street or road, or do or act thereon.

Article 31. To see if the Town will instruct the Highway Surveyor to gravel and repair Highland Street from its intersection with Parkerville Road to a point near the Catholic Church or pass any vote respecting the same.

Article 32. To see if the Town will vote to establish a voting precinct in the South part of the town and allow the use of the Southville Hall to the voters of Southville and Cordaville at State elections or pass any vote respecting the same.

Article 33. To see if the Town will appropriate the sum of two hundred dollars for Band Concerts or pass any vote respecting the same.

Article 34. To see if the Town will instruct the Highway Surveyor to grade A Street and appropriate a sum of money therefor or do or act thereon.

Article 35. To see if the Town will instruct the Highway Surveyor to widen a portion of Turnpike Road between the house of Moses A. Fay and the house of Mrs. A. E. Bacon and appropriate a sum of money therefor or do or act thereon.

Article 36. To see if the Town will instruct the Highway Surveyor to grade a portion of Upland Road and appropriate a sum of money therefor or do or act thereon.

THIRTY-SEVENTH
ANNUAL REPORT

OF THE

AUDITOR

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31, 1910

SOUTHBOROUGH, MASS.
PRESS OF
SOUTHBOROUGH PRINT SHOP
1911

Auditor's Report.

I herewith present the thirty-seventh annual report of the Town Officers and Committees for the financial year ending December 31, 1910.

During the year 1302 orders were drawn and charged to the various appropriations.

The Auditor would like to have bills for payment sent in a few days before the Selectmen's regular monthly meeting which at present is the first Friday of each month, and not wait until the night of the meeting as it delays the Selectmen. Also prompt return of all receipted town orders for filing.

Respectfully submitted.

THOMAS E. WALDRON,

Auditor.

STATISTICS FOR YEAR ENDING DECEMBER 31, 1910.

Treasurer.

Report of the Trustees of Fay Library.

The trustees have had their usual meetings and the routine business has been transacted as usual during the year.

Two of the trustees have died and one has moved away from Town.

In the purchase of new books much greater care has been used during the year than before as the books have been bought at different times and more opportunity has been given to look them over and get the judgement of competent people regarding them.

The librarian's report shows about 9700 volumes in the library with a circulation of 5,765 of which 665 have gone in the delivery to Southville and Cordaville on Saturdays. The trustees feel that with the books we have the circulation is not what it should be. The proportion ought to be the other way.

The issuing of the catalogues or more properly finding lists which will be ready by Feb. 1, ought to bring about a much larger use of the library and a more intelligent selection of the books.

Another thing which the trustees suggest we believe would result in a large increased use of the book in Southville and Cordaville. That is, the opening of a branch of the library in the Town hall at Southville. We think that if it is a choice between the present delivery of books in

those villages and the opening of such a branch, the opening of the branch, which we think would cost no more than the present arrangement, would give better service even with the increased use of the library that would come from the issuing of the catalogues in mind.

It would be a very practicable thing to have boxes made with shelves to hold about 100 books each, fitted with doors that could be locked if the hall were to be used for other purposes. These boxes could be used for transporting the books and also set up instead of shelves. Thus 300 to 500 books or more could be kept there and replaced from time to time by others. Then if conditions warranted, periodicals could be provided and a good reading room maintained without great cost.

This arrangement would enable people to pick out the books more intelligently, though the selection of course would be limited. It would also relieve the present congestion at the main library to some extent. We think it would be preferable to the present arrangement, but the two would work in well together, as it would be possible if people wished to get their books either from the main library or the branch.

Respectfully submitted, .

ARDEN M. ROCKWOOD,
Chairman.

Report of Cattle Inspector.

In the general inspection of cattle in the town of Southboro in the past year (1910), I visited ninety-five stables and inspected eleven hundred and fifty head of cattle, and two hundred and seven swine, and found the majority in good health.

One cow was quarantined with tuberculosis and was condemned and killed by the State.

Respectfully submitted,

S. G. ALLEN,

Inspector, Town of Southborough.

W. C. SIMPSON,
Sealer of Weights and Measures.

Selectmen's Report.

During the past year the Selectmen entered into an agreement with the Massachusetts Highway Commission, the same as other towns, for treatment of the mile and a half of State Highway (Main Street), from the Deerfoot Road to beyond the house of Thos. P. Lindsay, with heavy oil. The work was done by the Town Highway Surveyor under the direction of the State Commission. The work was splendidly and thoroughly done.

The expense was greater than estimated, on account of the condition of the road. The Highway Commission, owing to this larger expense, have agreed to reimburse the town the sum of \$470.00, which will later be sent to the Town Treasurer. Those of us who remember the condition of the Main Street from Brigham's Corner to the Big Dam a few years back appreciate this long extent of good road.

The work on the Boston Road near St. Anne's church is practically finished, and the Boston & Worcester car tracks changed ; a very dangerous corner eliminated, and an excellent sidewalk put down by the Highway Surveyor.

Very little has been done about the abolition of the grade crossing at Southborough Center this year, owing to the resignation of the chairman of the Commission, Hon. Samuel W. McCall, and the difficulty of getting the Commission together. The Court have appointed a new member, Mr. A. W. De Gooch, and your Board have been in correspondence with the attorney of the N. Y. N. H. &

H. R. R. The hearings will be taken up again in the very near future, and the Selectmen hope to have the matter settled before summer, so the work can be done this year.

The swimming pool was in successful operation, and used a great deal during the past very warm season. The Selectmen will ask the town for a special appropriation for a care-taker for the coming summer, as your Board feels it is necessary.

As directed by the town the Selectmen employed a first class accountant to examine the town books, which were found in excellent condition.

The most serious problem the town has before it is the retention of the corporation tax. The loss of this would hurt the town tremendously, and practically double the tax rate. This year is especially a critical year, owing to the wave of radicalism that has been sweeping over, not only this state, but the whole country. Southborough is fortunate in having a member of the Legislature, who is on the committee on taxation, and will do all in his power to look after the interests of the town. This question means lots of hard work for your Board, and the Selectmen will use every effort to protect the town interests.

The Selectmen, as authorized by the town purchased a new chemical fire engine for \$1125.00. The same has been placed at the fire house in Southborough Center. Your Board did not sell the hose carriage, as they could not obtain what they considered a fair price for it. They feel that it can be used to advantage by the town.

Respectfully submitted,

FRANCIS D. NEWTON,

JOHN T. BURNETT,

PAUL S. LINCOLN,

Selectmen.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31, 1910

Report of the School Committee.

In looking over our financial report probably the first thing that will come to your notice will be the fact that our appropriation has been overdrawn. The extra work being done in the Industrial School accounts for a large part of the deficit. An unusual amount has been expended for Books and Supplies. Your committee could not see any way to carry on the work started without exceeding the appropriation and did not think that you wished to have anything abandoned. We are trying to do more in our High School than is being done in any other town of the size in the State. With our complete commercial course and the Industrial work we are giving our children as much as they would get in a city school. We point with pride to the fact that our graduates are prepared to earn a living at once upon leaving school. Several of those graduated last summer secured positions at once with fair remuneration. Some of the others have entered college and are doing successful work. If the expense seems too great we are ready to be instructed. We are your agents and expect to do your will. We have placed the matter before you plainly and invite your criticism. In mak-

ing our plans for another year we shall be guided by instructions given at the Town Meeting. If the work is to be carried on as begun it cannot be done for less than the amount expended during the past year. If it is you desire to reduce the cost of running the schools, instructions should be given at the annual meeting and the committee, as your agents will carry out your instructions. To aid you in this we give below in parallel columns the figures for the past two years. These will show you what becomes of the money expended and enable you to make comparisons.

COST OF SCHOOLS.

| | 1909 | 1910 |
|------------------------------|------------------|------------------|
| Superintendent and teachers, | \$ 6,893 76 | \$ 6,886 85 |
| Transportation, | 1,840 00 | 1,955 50 |
| Janitor Service, | 865 50 | 922 77 |
| Fuel, | 865 31 | 926 31 |
| Books and supplies, | 653 00 | 989 69 |
| Miscellaneous, | 868 92 | 614 32 |
| Industrial education, | 491 99 | 1,105 69 |
| | <u>12,478 48</u> | <u>13,401 13</u> |

Any suggestions for reducing the expenditure for either of the above items will be thankfully received and have careful consideration.

SCHOOL COMMITTEE'S REPORT RECOM-
MENDING CONSOLIDATION OF THE
SCHOOLS IN CORDAVILLE
AND SOUTHVILLE.

The special Committee appointed at the last annual Town Meeting to investigate and report on the administration of Town affairs have requested the School Committee to make a report to the town in regard to the erection of a new union building in the south part of the Town. Your committee have given this matter careful consideration and are unanimous in their opinion that a new building is a necessity. We therefore, take this opportunity to state why we believe a new building is desirable in that district.

For a number of years past the subject has been brought up at our meetings, and we have been on the verge of asking the town to consider the advisibility of having erected a new building in that section.

In the first place, the buildings are old and have outlived their usefulness. They are not in accord with the spirit of the times. Although we have tried to keep them in a fairly respectable condition, we have expended only what we believe absolutely necessary.

The sanitary conditions are very unsatisfactory and besides the water supply is inadequate. We have

had to depend upon outside sources to get water, and at present, for a small consideration are supplied in that way. During the past year we did think somewhat of either sinking the wells or digging new ones, but this would mean the outlay of several hundred dollars, and believing that in the near future a new building would be asked for and granted, we decided that it would be very unwise on our part to go to this expense.

We believe that consolidation would add materially to the progress of the schools there. We would have better schools, besides we could have better graded work. At the present time in each of the Primary schools the teacher has four grades; in the Grammar school the teacher has four grades and an average school of thirty-eight pupils. This is too great a number for one teacher to do satisfactory work, and as a result pupils in that district have not the advantages of the pupils in the Centre. The schools there are properly graded, and consequently the pupils that enter the Ninth grade from the south part are not so well prepared for the above named reason.

While we do not believe there would be any decrease financially in consolidation, we do know that the work could be done in a more uniform and satisfactory manner.

We could have three schools of three grades each. By so doing we could have a ninth grade thereby dispensing with the necessity of such pupils

going to the Centre.

In regard to a location for this building, it would have to be placed as nearly as possible between the two villages.

The school house lot where the present grammar school now stands, we would not recommend for that purpose. It is not large enough, besides the grounds are hilly. Land to the north of this building would be a very desirable location. This is owned by the Cordaville Woolen Co.

We earnestly recommend that this matter be given serious consideration by the voters of Southborough.

Respectfully submitted,

S. H. HOWES,
D. F. HARRINGTON,
F. A. FLICHTNER,
School Committee.

Report of Superintendent of Schools.

To the School Committee of the Town of Southborough :

Gentlemen :—

The twenty-first annual report of the Superintendent of Schools is herewith presented. The usual statistical data and reports of special teachers and of the High School Principal will be found in their appropriate places.

The schools are to be commended for the uniformly excellent spirit which pervades them and the earnest efforts put forth by both teachers and pupils to register progress and efficiency. These efforts are, however, considerably handicapped by the large amount of absence evidenced by the records. Since the schools opened in September there were 1741 days of absence in all the schools of the town, or an average of over a week for every child enrolled.

It is true that over seventy per cent of this absence record has been caused by sickness ; but whatever the cause, so great an amount of absence is a serious menace to successful school work. There were 265 instances of tardiness in all of the schools

since the opening in September, occurring mostly in the high school and the upper grammar grades.

Irregularity of attendance breeds indifference in the child that is addicted to that habit, kills the enthusiasm of the school which he attends, and discourages his teacher. I am impelled to mention this matter by the belief that, the extent and nature of this species of school waste being known, there will be an earnest attempt on the part of parents to improve the attendance record in this town.

MANUAL TRAINING.

The work of the manual training department is progressing on about the same lines indicated in the superintendent's report of last year, and excellent results are being accomplished. There is a danger, however, that after the newness of this department of school work has worn away, that some children will not maintain their interest in it. The best remedy for such a condition, I believe, is continually to make the work seem worth while to the child. That is the aim in this department, as is suggested by the variety of products attempted. The making of such articles of utility as picture frames, tie racks, book cases, cabinets, shelves, etc. appeals to a boy's sense of values.

COOKING AND SEWING.

The work in domestic science is well covered in the report of Miss Tower, the teacher in charge. I

would add, however, that additional zest would be engendered in this department by making it contribute to the noon lunches of the children who do not go home to their dinners.

To do this it would only be necessary to employ the teacher of domestic science for the five days of each week instead of two, and give her certain academic subjects of the high school to occupy the balance of her time. The expense of fitting up a place where hot soups and drinks, sandwiches and pie could be served at cost, I believe would not exceed one hundred dollars. Such a change would be a help to the high school department in that additional lines of work could be attempted, or more accomplished in the lines already established. A useful outlet for the activities of the cooking period would be provided; and the children who remain at the school building during the noon hour could enjoy a hot drink to supplement their cold lunches. This thing is done in other places, and I see no serious obstacle to its being done in Southborough.

I trust the reports of the special teachers may receive due consideration, and I assure you, Gentlemen of the School Committee, of my appreciation of your cooperation for the best interests of the schools of Southborough.

Very respectfully submitted,

F. B. VAN ORMUN.

Superintendent of Schools.

Report of Supervisor of Drawing.

To the Superintendent and School Committee of Southborough.

Gentlemen :—

Drawing in the Southborough schools during the two years I have worked with them shows considerable progress in many lines. Our aim is of three parts : to gradually unfold for the child the world beautiful, to cultivate in him an appreciation for it and the power of representing it. With this aim in mind, plant life is studied throughout the year as much as possible, supplemented with courses in landscape and design.

In all the schools I find the children ever ready to respond, and particularly in individual cases have I noticed marked improvement. As a whole, the spirit is excellent.

In many of the rooms the teachers are using the drawing in correlation with some other study, making each of benefit to the other.

I am very grateful to the teachers for their ever present interest in the work, and I wish to thank them all most sincerely for all assistance they have given me.

Respectfully submitted,

AGNES M. CHOATE.

Supervisor of Drawing.

Report of Supervisor of Music.

*Mr. F. B. Van Ormon, Superintendent
of Schools;*

During the four years since a report has been given by the Supervisor of Music there have been very few changes in the study of music in the schools of Southborough.

One of the best things accomplished was the installation of a new piano in the Assembly Hall in the High School building. I am sure that we are all grateful for the new instrument, and all enjoy using it.

At the present time the class in the High School is the largest since music was made elective, which is gratifying. For the last three years at both the High and Grammar School graduations we have been able to have solos, duetts, etc., by individual members of the classes, as well as choruses by the whole school. In the Grammar School the words of the class song have been written by one of the pupils, and last year this plan was followed in the High School.

The High School uses octavo music almost en-

tirely, occasionally singing from "The Cecelian." The Grammar School is now learning some of the old well-known songs, and we are able to have three-part singing. I am glad to say that there is an improvement in the music in this school.

Since, September the Intermediate School has shown such an interest in the music that on the day of my visit we have had the lesson in the Assembly Hall, in order to use the piano.

In the First Primary School the first grade formerly learned rote songs only, but this year the children are taking up chart work also, which I think will be of benefit to them next year.

The music in the other schools has been carried on as usual.

Respectfully submitted,

NETTIE L. GREEN,

Supervisor of Music.

Report of Teacher of Cooking and Sewing.

To the Superintendent of Schools :

Sewing is begun in the sixth grade. The girls are taught and practice stitches on a piece of cloth and as soon as they can do them well enough, they are put onto some simple article such as a combination of sewing bag and apron. Flannel petticoats are also made in this grade.

In the seventh grade, the stitches are reviewed and they are taught to thread and run a sewing machine. They make pillow cases, plain petticoats, fancy or sleeveless aprons.

Cooking caps and cooking aprons are made in the eighth grade. The girls are taught to use patterns and cut their own aprons. These are stitched by machine. They also make buttonholes, patches and darns.

The first three classes in the High School are making undergarments. These are all cut by the pupils and partly made by machine. They also review buttonholes, make gussets and sew on hooks and eyes.

In the last year of High School, each girl cuts and makes a washable dress, and learns some of the more fancy stitches, featherstitching, hemstitching, and embroidery which may be used on her dress.

Cooking is compulsory only one year, in the ninth grade. This is not only the preparation of food but includes housekeeping duties such as dusting, care of sinks, towels, silver, knives, etc.

Study is made of the composition and prices of food, so that the girls may be able to choose food that will give them the best nourishment for the price. For the most part, only plain cooking is done in the school room and if the principal of the cooking is thoroughly understood, the more elaborate dishes may be made at home.

The girls are all interested in their work and in order to make the lessons more practical, should be allowed to help with such work at home.

Respectfully submitted,
MARTHA A. TOWER.

Report of the Manual Training Instructor.

I submit to you a brief report of the Manual Training department of the Southborough Public Schools.

During the past year our High School work has been conducted as nearly as possible along the lines of the outline which I presented in my report of last year. As our machine lathe has not been fully equipped, it was found necessary to give the seniors wood turning instead of metal work, and as a consequence the sophomores can take no wood turning as there are barely lathes enough to go around among the juniors and seniors. To alleviate this difficulty I would suggest that a twelve inch engine lathe be added to our equipment and that the seniors be given metal turning and metal spinning.

The circular saw which was installed last year has proven its worth in many ways, enabling the boys to do better and more rapid work with little unnecessary labor and a minimum of waste material.

A small hand saw would make our shop equipment very complete, and enable us to do many varieties of work which we have as yet not attempted,

such as the rockers and backs of chairs, round top tables, etc.

The work of the grades shows a considerable improvement over that of last year, and the interest shown in the work in some cases is intense.

Respectfully submitted,

GEO. G. ROGERS.

Report of Principal of Peters High School.

I herewith hand to you the Principal's report for the year 1910-1911.

The enrolment to date shows 48 pupils agaisnt 44 for last year, divided as follows : Seniors, 8 ; Juniors, 11 ; Sophomores, 12 ; Freshman, 17 : Commercial Course, 28 ; Classical, 13 ; Scientific, 7. Taking the school as a whole there has been steady improvement, far more than is proportional to the size of the school and teaching staff. Of last year's graduating class one is attending Colby College and another the Boston School of Pharmacy. Four passed examinations in stenography and typewriting with marks above 90 per cent at the Oliver Typewriter Rooms, Boston, and three of these have permanent positions. This speaks well for the grade of work that is being done both on the part of the pupils and the teachers, especially in the Commercial Department. It is not necessary for our boys and girls to leave school for some Business College in order to become fitted for a good position.

The improvement has taken place not only in the scholarship but especially in the High School, there

has been a marked change of attitude in general. There is less restlessness and more of a spirit of "paying attention to business." I think that the pupils are realizing more that as fast as there increases an atmosphere of friendly cooperation between pupils and teachers, just so fast there is increased advance all along the educational line. And I particularly urge that the parents and the friends of the school unite in furthering the idea—which is a fact, indeed—that the teachers are here solely to help the pupils in all of schools and that the less the pupils allow their minds to run to mischief and the more manly and womanly, and cooperatively thoughtful they become in their conduct, the more they will receive from the schools and the better prepared they will be for life.

There is a good interest in the Manual Training and the Sewing and Cooking Courses. We have been endeavoring to bring this part of our work into the public eye by serving a series of afternoon teas, the work,—including invitations, menu, and brief literary and musical program—being prepared entirely by the girls under the supervision of the teachers in the Departments. In due time all the parents of High School pupils and as many others of the towns people as possible will have been invited.

The equipment of the school is being steadily improved. Needed scientific apparatus has been added from time to time. The most important addition is the reflectoscope. This instrument projects upon a

screen not only the customary glass slides but any plain opaque picture such as maps, line plate cuts, and post cards. Thus it is possible to illustrate almost any course of study besides giving us an opportunity for public lectures.

The Basket Ball Team and the school publication The P. H. S. Index are in a prosperous condition. Up to the present time the team has won seven out of nine games. In reference to the Index we might say, however, that the public sales have been a little disappointing. The pupils are getting out a fine little paper and it would give them considerable more enthusiasm in this branch to their work if the townspeople would subscribe more generally. You will find the paper on sale at the drug store.

While the school is prospering as above indicated there are two things which sadly need remedying for it is in spite of them that we have done as well as we have. I refer to the crowded schedule of classes for the teachers and the large number of absences and tardinesses on the part of the pupils, both of which were commented upon last year. As to the first I find that the Outlined Courses of study call for 127 recitation and laboratory periods per week for the regular courses. On the basis of a seven period schedule there are 35 possible periods for each of three teachers or on the basis of an eight period schedule there are 40 possible periods for each teacher, but in the latter case the P. M. periods must be about 30 minutes in length, which

in most cases is too short. By alternating and combining several of the Junior and Senior, Freshman and Sophomore courses — which however is not really a good scheme from the standpoint of the state of development of the pupil's minds in the different classes — we have reduced the number of recitations per week to 108. $108 \div 35$ or $108 \div 40$ does seem to make it a possibility to conduct the work with three teachers. But we cannot guarantee any study periods nor practice periods for typewriting, neither is it possible to avoid a too great succession of recitations for the individual pupil. These may come as a matter of luck but it is only luck in most cases.

But in addition to the above number of recitation periods, we are called upon to give 4 hours to Manual Training, 1 hour to Music, and 1 hour and 40 minutes to drawing. These periods are not only added to the recitation period as numbered above in almost every case the time for them must be deducted from the regular teachers' time for conducting recitations. Therefore the problem reduces itself to mathematical impossibility.

The question naturally arises: what are we doing under these circumstances? We have been obliged to give four periods per week to those courses that call for five and three periods to many of those that call for four. There is nothing else to do but it is unnecessary for me to draw the natural conclusion in reference to justice to the pupil's.

Incidentally I might say also that the best results are not to be attained either in scholarship or administration. So long as the principal must devote practically the whole of his time to conducting recitations and to the clerical work of the High School alone and yet trying to act as administrator for a building containing five schools and over two hundred pupils. Evidently our teaching staff must be augmented or else we must content ourselves with a less ambitious curriculum. But as suggested last year, the bulk of these difficulties can be remedied with but small proportional expense by making the Domestic Science teacher a regular teacher handling other branches along with her Cooking and Sewing. To this end I heartily endorse Supt. Van Ornum's suggestions along this line. Or it would be a very great advance to engage a teacher of Elocution who would handle all of the work in English thus relieving the Commercial teacher who has more work to handle than can be done to advantage. The pupils need greatly special training in articulation and speaking both in general conversation and in public. Indistinct speaking has already worked to the disadvantage of the High School, namely at those times when we have been examined by the State Commissioner of Education.

For the second matter, figures will speak eloquently. During this last fall term of 16 weeks 226 pupils were enrolled in the Grades and High School.

Out of whole 226 only 19 were neither tardy nor absent! There were 1144 whole-day absences; and 297 half-day absences; and 289 tardy marks! An average of more than one week's absence for each pupil. During the fourth month in High School the average per. cent. of attendance was but 90.2%. I do not believe that this is necessary. I know that it is detrimental to the the schools. Put it on an economic basis, if you please, and you see that the Town is paying for one week's more instruction than your children are receiving. Is it not possible to have all hands: teachers, school committee, parents and children unite to wipe out such a record.

I am glad to note that there have been more of the parents visiting the shcools during the year, particularly the Grades. This is a good sign. We hope to see the number of such visitors multiplied. The children will take a greater interest in their work if they are convinced that their parents are also interested.

Again, this year, I wish to express my gratitude towards all those who in any way have assisted in helping increase the efficiency of the schools. The teachers all renew their determination to be of use to the children in there development.

LINWOOD L. WORKMAN,
Principal.

ARTICLES OF THE TOWN WARRANT

MARCH 4th. 1912.

Article 1. To choose a moderator to preside in said meeting.

Article 2. To choose all necessary Town Officers and Committees:

The vote for Town Clerk, Treasurer, Collector, Auditor, Selectman, Assessor, Overseer of the Poor, School Committee, Town House Committee, Cemetery Commissioner, Trustees of the Fay Library, Highway Surveyor, Tree Warden and Constables to be on one ballot.

The polls will be open for the election of officers at eight fifteen o'clock in the forenoon and may be closed at two thirty o'clock in the afternoon of said day.

The following officers to be chosen by ballot: Town Clerk, Treasurer, Collector, Auditor, Selectman, for three years, Assessor for three years, one member of the School Committee for three years, one Overseer of the Poor for three years, Tree Warden, Highway Surveyor, Three members of the Town House Committee, one Cemetery Commissioner for three years, Constables and two Trustees of the Fay Library.

Article 3. To vote by ballot Yes or No on granting license for the sale of intoxicating liquors.

Article 4. To hear the reports of Town Officers and Committees and do or act thereon.

Article 5. To raise such sums of money as may be necessary for the legitimate use of the Town and make appropriations of the same.

Article 6. To hear the report of the Trustees of the Fay library and do and act thereon.

Article 7. To determine the manner of collecting the

taxes for the ensuing year or pass any vote respecting the same.

Article 8. To see if the Town will authorize its Treasurer to hire such sums of money as may be necessary for the Town's use and pass any vote respecting the same.

Article 9. To see if the Town will authorize its Collector to use all means for collecting the taxes which a Town Treasurer may use when appointed Collector.

Article 10. To see what disposition the Town will make of the Dog money and pass any vote respecting the same.

Article 11. To see if the Town will authorize the Selectmen to defend any suits which may be brought against the Town, and to prosecute any suits in behalf of the Town or do or act thereon.

Article 12. To see what action the Town will take to suppress the illegal sale of intoxicating liquors or pass any vote respecting the same.

Article 13. To see if the Town will appropriate the sum of one hundred dollars to be expended by Post 44, Grand Army of the Republic for defraying the expenses of Memorial Day and decorating and repairing soldiers' graves.

Article 14. To see if the Town will appropriate the sum of fifty dollars to be expended by Post 44, Grand Army of the Republic, in accordance with Section 15, Chapter 25 of the Revised Laws and pass any vote respecting the same

Article 15. To see if the Town will appropriate a sum of money necessary for street lighting and pass any vote respecting the same.

Article 16. To see if the Town will authorize the Selectmen to contract for lighting any street or road not

now provided with lights or pass any vote or votes respecting the lighting of streets, roads or ways.

Article 17. To see if the Town will appropriate a sum of money for transporting books from the Fay Library to the Villages of Cordaville and Southville or do or act thereon.

Article 18. To see if the Town will authorize the Selectmen to represent the Town before the General Court in all matters regarding taxation and to employ counsel as may be necessary to protect the interest of the Town or pass any vote respecting the same.

Article 19. To see if the Town will appropriate any sum of money unexpended by any special appropriation of last year, if needed to complete any work or purposes for which such appropriation was made.

Article 20. To see what action the Town will take toward providing an adequate water supply for the public buildings at the centre of the Town or pass any vote respecting the same.

Article 21. To see if the Town will request its representatives in the General Court to vote for the submission to the people of a Constitutional Amendment providing for Direct Legislation through the Initiative and the Referendum.

Article 22. To see if the Town will accept the report of the Selectmen on the layout of a new town way, over land of Leander W. and Cora A. Newton and land of heirs of Lyman Newton, near the house of Patrick M. Salmon, and running from Newton Street to Lyman Street, or pass any votes respecting the same.

Article 23. To see if the Town will appropriate a sum of money for constructing the public way as laid out by

the Selectmen, near the house of Patrick M. Salmon, or do or act thereon.

Article 24. To vote "Yes" or "No" in answer to the following question:

Shall an act passed by the General Court in the year nineteen hundred and eight entitled "An act to provide for the protection of forest or sprout lands from fire, be accepted by this town?"

This vote to be on separate ballot.

Article 25. To see if the Town will establish the salary of the Highway Surveyor for the ensuing year, or do or act thereon.

Article 26. To see if the town will authorize the Selectmen to contract for electric lighting of the streets between Jericho Road and Otis Corner and appropriate money for the same.

Article 27. To see if the Town will vote to widen Gilmore Road, between George Gilmore's house and the old Shuttleworth house, or pass any vote respecting the same.

Article 28. To see if the Town will vote to cut the corners on Cordaville and Turnpike roads and the corners on Parkerville and Turnpike roads, or pass any vote respecting the same.

Article 29. To see if the Town will vote to change the name from Middle to Central Road leading from the Main street opposite the Common to Parkerville Road, or pass any vote respecting the same.

Article 30. To see if the Town will vote to light the road now called Middle Road, or pass any vote respecting the same.

Article 31. To see if the Town will vote to light the

roads and streets between John O'Brien's Corner and White's Corner, or pass any vote respecting, the same.

Article 32. To see if the Town will ratify the payment of ten per cent. for services of the highway surveyor for the past year, or do or act thereon.

Article 33. To see if the Town will approve of the payment of ten per cent. for the services of W. A. Gould in superintending the construction of the sidewalk in outhorough Center, or do or act thereon.

Article 34. To see if the Town will vote to elect at the next annual Town meeting a Board of Health, or do or act thereon.

Article 35. To see if the Town will appropriate a sum of money to establish and maintain a branch of the Fay Library in the Village of Fayville, or pass any vote regarding the same.

Article 36. To see if the Town will take any action in regard to providing a permanent water supply for the swimming pool, or do or act thereon.

Article 37. To see if the Town will appropriate a sum of money to repair the street leading from Main street past Smith's livery stable, or pass any vote respecting said street.

Article 38. To see if the Town will vote to remove the Chemical now at the Center to the stable of Irving Smith and appropriate a sum of money to provide for the same, or take any action thereon.

Article 39. To see if the Town will vote to complete the concrete sidewalk from Marlboro Road to the Southwest corner of the old cemetery, or do or act thereon.

Article 40. To see if the Town will vote to revoke the action of the Town whereby it voted to accept Section

336, or other sections of Chapter 11, or corresponding provisions of earlier laws pertaining to the election of a Highway Surveyor.

Article 41. To see if the Town will appropriate a sum of money for constructing a sidewalk on Summer and Winter streets, between Turnpike Road and Central street in Fayville, or pass any vote respecting sidewalks.

Article 42. To see if the Town will vote to increase the salary of any Town officer, or pass any vote respecting the same.

Article 43. To see if the Town will choose a committee to consider the remodeling and repair of the Town House, and report at the next town meeting, with plans and estimates of cost, or do or act thereon.

Article 44. To see if the Town will instruct the Treasurer to invest money held or owed on account of the Fay Library, or do or act thereon.

Article 45. To see if the Town will approve of the overdraft paid by the Selectmen on account of labor and sand applied to Main street the past year.

Article 46. To see what action the Town will take in regard to the claim of John Sealey for damages by water to his premises on Newton street, or do or act thereon.

THIRTY-EIGHTH

Annual Report

OF THE

AUDITOR

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31, 1911

SOUTHBOROUGH PRINT SHOP
Southborough, Mass.

Auditor's Report.

I herewith present the thirty-eighth annual report of the Town Officers and Committees for the financial year ending December 31, 1911.

During the year twelve hundred and sixty-four orders were drawn and charged to the various appropriations.

All bills for payment should be sent in a few days before the regular monthly meeting of the Selectmen, and must be itemized and explicit.

It is important that all receipted vouchers are promptly returned for reference and filing.

Respectfully submitted,

CHAS. E. BAGLEY,

Auditor.

STATISTICS FOR YEAR ENDING DECEMBER 31, 1911.

Southborough, Mass., Dec. 31, 1911.

Cattle Inspector.

In the general inspection of cattle in the Town of Southborough in the past year, (1911), I visited ninety-two stables and inspected eleven hundred and fifty-two head of cattle, and one hundred and seventy-two swine, and found the majority in good health.

Three cows were quarantined with tuberculosis and were condemned, and killed by the State.

Respectfully submitted,

S. G. ALLEN,

Inspector, Town of Southborough.

J. W. METCALF,
Treasurer.

Report of the Trustees of Fay Library.

In figures and statistics the trustees of Fay Library cannot make a report that will be any improvement upon that of last year. The usual meetings have been held, business transacted, books bought, and so on, much as in past years. The figures do not show any more use of the library, in spite of the new catalogues and other things that we feel ought to make a difference in it. One fact, however, is significant; and that is that nearly all the falling off in the number of books delivered is in the number sent to Southville and Cordaville. Out of the total decrease of 203, that of 130 is in the list sent to those villages. It looks as though when the branch library is established there the balance might be the other way.

Leaving figures out of account, however, there are many things that point to a much better condition. Instead of having an attendance of four or five out of a total of fifteen at the meetings, now all the trustees attend with interest and enthusiasm. The book committee have given a good deal of time to their work and a large number of new books have been purchased. Special attention has been given to providing books along the line of farming and other practical lines, not the purely technical and hard to read, but those that are readable, interesting, and practical as well. Especially it has been sought to provide this class of books for the boys and girls.

It has not been possible to make much improvement in conditions at the present library. With the prospect

of getting into the new one so soon, there was little that could be done. There is one thing to which the trustees would call attention, however, and that is the shelf for the new books, so situated that all can get at them to look them over as they wish.

As to the future, little can be said at present. A larger appropriation will be necessary during the coming year, not merely because of the added expenses in running the new building, but also the expense of moving and the work of looking over and sorting out the books, and all the things that will be necessary to look after in connection with the moving.

The trustees are trying to bring about the greatest possible efficiency at a minimum cost. They are putting considerable time and thought into it without charge, and ask only the cooperation of the people of the town, reminding them of the fact that there are a large number of valuable books there which may be used if one is willing only to come after them, and which embrace to some extent every line of thought and information. For the benefit of the book-buying committee the trustees would call attention to the fact that they are always ready to welcome suggestions of books which are desired, and there is a book in the library for the purpose of putting down the names of such books as are desired.

Respectfully submitted,

ARDEN M. ROCKWOOD,

Chairman.

Jan. 1, 1912.

- Number of liquid measures tested and sealed, 24.
- Number of yard sticks sealed, 6.

W. C. SIMPSON,

Sealer of Weights and Measures.

Library Committee Report.

Your committee for building the Public Library respectfully reports progress. The building is not yet finished.

We have expended \$18,078.46, and hope in the next few months to have it completed.

Yours respectfully,

HARRY BURNETT,
DANIEL F. HARRINGTON,
FRANCIS WRIGHT,
EDWARD F. COLLINS.

Tree Warden's Report.

Your Tree Warden respectfully submits the following report :

I have expended for supplies and labor—

| | | |
|-----------------------|----------|----------|
| Olds Gas Power Co., | \$ 12 00 | |
| H. A. McMaster & Co. | 15 45 | |
| R. W. Schnare, | 75 | |
| Francis Wright. | 75 | |
| Merrimac Chemical Co. | 42 00 | |
| George R. Hall & Co. | 1 73 | |
| A. C. Lamson, | 2 00 | |
| W. A. Gould, (teams) | 181 40 | |
| Labor, | 643 48 | \$899 56 |

I have expended on the Gypsy and Brown Tail Moths work—

| | | |
|-----------------------------------|----------|------------|
| James O'Leary, | \$ 5 00 | |
| N. Y., N. H. & H. R. R., freight. | 1 10 | |
| Southboro Print Shop, | 9 02 | |
| H. A. McMaster & Co. | 1 39 | |
| Labor, | 3,087 57 | \$3,104 08 |

| | | |
|--|------------|------------|
| To offset these amounts there is the appropriation of | \$1,500 00 | |
| Received from State from Gypsy and Brown Tail Moths suppression, | 314 66 | |
| Moth tax, | 1,314 28 | |
| Private spraying, | 153 85 | \$3.282 79 |

Your Tree Warden has done considerable tree-trimming in various parts of the town. The increased expense is partially owing to the spraying for the elm tree beetle, which was very prevalent the last year. The State made us a small allowance in suppressing the Gypsy and Brown Tail Moths.

It is a little discouraging to try to keep our town free from these pests when our neighbors are not doing their work.

Chestnut disease is here, and I am told on good authority that the only way to prevent its spreading is to cut down and burn the infected trees.

I would ask for the Tree Warden \$500.00, to be expended at his discretion, and for the Gypsy and Brown Tail Moths work I would ask for an appropriation of \$1,500.00.

Yours respectfully,

HARRY BURNETT,

Tree Warden.

SELECTMENS' REPORT.

The town was very unfortunate in losing the services of Waldo B. Fay as Town Treasurer. Mr. Fay resigned his office to take effect May 8, after seventeen years of service, in which he served his native town with great honesty, faithfulness, integrity and honor.

The Selectmen, according to law, appointed the auditor, Thomas E. Waldron, as town treasurer to fill out the unexpired term, believing him to be a worthy successor of Mr. Fay. The young man is experienced in business affairs, with an excellent record as auditor.

Charles E. Bagley was appointed auditor, and has been eminently successful in filling that position.

One hearing has been held on the abolition of the grade crossing at Southborough Center.

Last year a more determined effort than ever was made in the Legislature to allow the State to retain the corporation tax. Fortunately for the Town this was defeated after a very hard and vigorous fight, and the Selectmen wish to take this opportunity to call to your attention the tremendous amount of good work our local representative and fellow townsman, Augustus E. Wright, as a member of the legislature, did, and the great help he was to your Board. The matter of the corporation tax is of the most vital interest to the tax payers of this town. The loss of this tax would mean more than the doubling of the present tax rate. The Selectmen realize the seriousness of the situation, and will be untiring in their efforts to retain this tax again this year, and have already

retained counsel and are giving it their very closest attention.

The Town of Southborough, for the first time in its history, issued bonds, as authorized by a special town meeting, to pay for the new school house which is now being erected in the south part of the town. The amount issued was twenty-two thousand dollars in four per cent. bonds, which are sold at a premium. These bonds are to be retired two thousand dollars annually, the same to be raised by taxation. This is according to the State law.

The Selectmen wish to urge upon the tax payers of Southborough the necessity of economy in the expenditures this coming year. The fixed charges of the town have increased owing to the erection and near completion of the new public library, the building of the new school house, and the hall in Fayville. It will cost money to keep these permanent improvements up in the way they should be, and your Board feels that the town, for its size, has been spending a great deal of money in the past few years, and wish to go on record as urging economy unless the tax payers realize that the tax rate will have to be increased,

Respectfully submitted,
FRANCIS D. NEWTON,
JOHN T. BURNETT,
PAUL S. LINCOLN,
Selectmen.

ANNUAL REPORT

OF THE

School Committee

OF THE

Town of Southborough

FOR THE

Year Ending December 31, 1911

Report of the School Committee.

If you will look over our financial statement below you will notice that we have been able to carry on the work of our schools without an over-draft, though we have run very close, and a few bills have been carried over into the next financial year. Unless there is some extraordinary expense the same amount of appropriation should suffice for the year 1912.

Our water supply at the High School is still rather unsatisfactory, and we recommend an appropriation of \$500.00 toward improving that unless some action is taken by the town toward a general supply for the public buildings at the Centre, which general plan shall make provision for the Peters High School.

FINANCIAL STATEMENT.

Report of the Superintendent of Schools.

*To the School Committee of the Town of South-
borough.*

GENTLEMEN : The twenty-second annual report of the Superintendent of Schools is herewith presented.

CHANGES IN THE TEACHING FORCE.

Of the fifteen teachers required by the schools of the town the names of only seven, who were in the service of the town Jan. 1, 1911, appear on the payroll of the new year. Misses Bradford, Thrasher, Kingsley, Peabody, and Parker, and Mr. Rogers resigned to accept better positions elsewhere ; Miss Reagan to enjoy a year's leave of absence among friends in the West ; Miss Choate to continue her art studies, and Miss Green to be married.

On Jan. 29 of the new year Mr. L. L. Workman, for two and one-half years principal of Peters High School, resigned to accept a very attractive position in the Framingham Normal School. His kindly spirit and earnest efforts have made a deep impression for good both upon the school and the community.

The new teachers, whose names appear elsewhere in this report, have taken up the work with

zeal where it was left by their predecessors, have readily acquired the traditions and practices of their new positions, and are securing very good results. Indeed, throughout the town the teachers are putting forth their best efforts to make the school life of the children of Southborough contribute in largest measure to their joy and profit.

THE MANUAL TRAINING DEPARTMENT.

The work in the Manual Training Department deserves special mention both on account of the interest in the work manifested by the boys, and also on account of the results accomplished. The list of articles already completed includes rulers, pencil sharpeners, match strikers, clothes sticks, key boards, done by boys in grade six; coat and hat racks, bread boards, knife and fork boxes, match boxes, done by boys in grade seven; whisk broom holders, string winders, shelves, done by boys in grade eight; sleeve boards, candlesticks, library tables, looms, bird houses, done by boys of grade nine; pen holders, pen trays, blotter pads, stationery boxes, stamp boxes, paper knives, small table, towel roller, taboret, bulletin board, done by boys of the high school.

Since September the manual training room, as well as the services of Mr. Prendiville, the manual training teacher, have been on Wednesdays and Fridays at the disposal of St. Mark's School under

an arrangement by which that school bears \$440 of the burden of the salary of the manual training teacher. Thus far I believe this arrangement has proved mutually to the advantage of the Town and St. Mark's School. I trust there will not appear any reason for an interruption of this arrangement.

THE NEW SCHOOL BUILDING

The new building in the South part of the town, the erection of which was made possible by the appropriation voted at the special town meeting in May last, is well on the way toward completion. It promises when finished to be one of the best, one of the most up-to-date school buildings of its size in the State. With this building in commission the citizens of Southborough may well feel proud of their school accommodations in all parts of the town.

PROMOTIONS.

A glance at the table of promotions on another page of this report will show that comparatively few children in town failed of promotion last June. Every normal child should make a grade each year. Every child who comes to school regularly, applies himself to his work to the best of his ability, and proves to his teacher that he is capable of profiting by the work of the next grade, is reasonably sure of promotion at the end of one year in a grade; but considerable absence from school or lack of applica-

tion often makes it unwise to grant promotion until the end of a second year in a grade.

THE ATTENDANCE RECORD.

Mention was made in the report of last year of the alarming amount of absence from school. The records still show too much irregularity in attendance, but there has been some improvement since September.

The child who attends school irregularly, who even loses a single day in two or three weeks, breaks the continuity of his lessons, loses many of them outright, holds back his class, and loses respect both for himself and for his school. Every parent who has the best interests of his children at heart will see to it that they attend school regularly unless sickness makes it impossible.

CO-OPERATION.

The child spends his time partly in the atmosphere of the home and partly in that of the school. In order to proceed intelligently to discharge the respective responsibilities of the school and the home in the proper development of the child, it would seem only reasonable that there should be mutual understandings between these two institutions.

The influence of the schools would be vastly increased if parents and citizens would visit the schools frequently, get acquainted with the teachers, inspect

the classes, and look over the buildings. Our teachers have not reached that standard of perfection where a word of appreciation of some good thing they are trying to do will not be an inspiration.

CONCLUSION.

I appreciate the worthy efforts of the School Committee to advance the interests of the schools of Southborough.

Very respectfully submitted,

FREDERICK B. VAN ORNUM

Supt. of Schools.

Northboro, Mass., Jan. 31, 1912.

STATISTICS.

| | |

Report of Principal of Peters High School.

To the Southboro School Committee:
Gentlemen,

I herewith hand to you the report of the Principal of the Peters High School for the school year 1911-12.

Continuing in point of time from my last year's report I find that the spring term of 1911 closed a good year for the high school. During the spring vacation by virtue of the liberality of the townspeople, and also of the St. Mark's and Fay Schools, who attended all or part of a series of entertainments, the senior class made a trip to Washington, D. C. and came back to school after an experience well worth its cost. There was a visible broadening of the minds and a corresponding enlargement of ideas on the part of the members of the class.

The graduation exercises in June were eminently successful and the class of eight faced the world in the right spirit. Two passed the examinations for the Framingham Normal School, one entered college where he is doing well, and two others are demonstrating the practical value and efficiency of the school's Commercial Course by giving good satisfaction in the Deerfoot Diary office.

The fall term opened auspiciously, three new teachers—two regular assisants and the Manual Training Instructor—soon demonstrating their ability to fill their positions well. This has been especially noticable in the sloyd and carpentry work.

The enrollement as follows: total names, 46; seniors, 10; juniors, 15; sophmores, 14; freshmen, 7. By courses; classical, 8 scientific, 14; commercial, 24. The attendance has been somewhat unsatistactory. Only one pupil has the record of being neither absent nor tardy from January 1st to Jauuary 1st. In my opinion, many parents as well as pupils fail to properly appreciate the value and necessity of constant attendance. Several pupils have made poor records for no other reason than absence from classes with the parents' permission.

The work of the classes on the whole has shown improvement over that of last year and the year before. My authority for this statement rests not wholly upon my opinion, but also upon the judgment of our State Inspector as well. Outside of the class work the activities of the school have been the same as last year. The school has continued the publication of the school paper, THE INDEX, and the boys have made a fine record in basket ball. The present senior class is making arrangements for a vacation trip to Washington, and I sincerely hope that they will be liberally supported by the town's people.

The spirit of the school has been very good ex-

cepting in one particular. There is the proper friendly attitude towards the teachers and considerable of a desire to co-operate with them. This is as it should be and it always results in direct benefit to the pupil, because the teachers can do one hundred per cent. better instructing if their minds are free from discipline work. But there is, however, a noticeable tendency to avoid hard, thorough work on the part of many pupils. It is this that has kept the school from receiving the Normal School certificating privilege. It is the duty of the parents to see to it that their children do "home work" faithfully for the lesson assignments cannot be mastered during school hours only. On the other hand a big mistake is being made practically every week by the home allowing social life in some form or other to take precedence over evening study.

In regard to the school obtaining the college certificating privilege, which many have spoken about at one time or another, I wish to make it plain that is it no fault of the standard of work that has kept us off the list, but rather the small number of graduates entering college. It is necessary for three graduates to be in the allied colleges at one time in order to be placed upon the list. After that one pupil entering college annually and maintaining a good record will keep the school's privilege of certification. Now is the time to make a try for the desired privilege, for with two in good standing at present, and one more

entering within two years, would give the school the right to petition for the certified standing.

In this my last report as principal of the Peters High School, I wish to thank the Committee for the confidence they have placed in me, and to indicate my appreciation of the support accorded me by the town's people in general, Especially am I grateful for the friendliness and respect of the school children which has been indicated in no uncertain way.

I bespeak for the school and pupils a most prosperous future.

Respectfully submitted,

LINWOOD L. WORKMAN.

Report of the Medical Inspector

To the Superintendent and School Committee of Southborough:

Gentlemen:—

I herewith present my report as Medical Inspector of the Southborough Public Schools.

At the commencement of the fall term all children in school were inspected.

Last year I found a large number of children with enlarged tonsils and defective teeth, but I am glad to be able to inform the public that these conditions have been well looked after by the parents and great many have been removed of such conditions.

The following table reveals the extent of the prevailing chronic conditions.

| | |
|---|-----|
| Total enrollment, | 338 |
| Total number inspected, | 338 |
| Total number perfectly normal, | 249 |
| Total number of cases of malnutrition, | 14 |
| Total number having defective teeth, | 25 |
| Total number of chronic tonsilitis, | 50 |
| Total number not vaccinated, | 22 |
| Total number of notices sent to parents, which have been followed by oper- | |

| | |
|--|----|
| ations or medical treatment looking towards relief of the diseased con- ditions found by the Medical In- spector, | 21 |
| Total number of notices of decayed teeth followed by dental treatment, | 15 |
| Total number of accidents in the schools, | 3 |
| Fracture of femur 1. | |
| Dislocation of shoulder 1. | |
| Lacerations requiring stitches 1. | |

Respectfully submitted,

DR. WALTER A. SHAW,
School Physician.

Report of Teacher of Cooking and Sewing.

To the School Committee of Southborough:

During the past year the work in Cooking has been along the same lines as in the two preceding years; that is, the girls have prepared for the most part plain food, estimated the cost, and learned what rules and the theory which seemed to be necessary to prepare it in the proper way. They also have been taught quick and good methods of work and to build a coal fire.

Their cooking has consisted of food illustrating the preparation in various ways of vegetables, cereals, baking powder mixtures for such as biscuits and muffins; soda and molasses mixtures for steamed plum pudding, ginger bread and brown bread; eggs cooked in various ways and in combination with milk, as in custards and puddings; pastry, in pies and turnovers, raised bread, meat, fish, gelatine, ice cream, cake, cookies, salad; and practice in using left-over material such as meat, potatoes and bread. They also learn to set the table, wait on table and to prepare a tray for an invalid. In addition to these things the High School pupils have made a few things which are more difficult though not as necessary, such as doughnuts, croquettes, fritters, and a few more fancy puddings.

During Thanksgiving week the High School classes cooked and served a Thanksgiving dinner. Covers were

laid for eight. Those who prepared the dinner sat at the table and girls from the other classes acted as waitresses. The menu was as follows :

Roast Chicken, Cranberry Sauce.
Mashed Potato. Squash. Turnip. Onions,
Celery.

Plum Pudding, Cream Sauce.
Grapes.

With the exception of the pudding the pupils furnished everything. They estimated the cost and found it to be about thirty cents per plate.

During the year three after-school lessons were held. The parents were invited to come early enough to see the class at work and later were served. After the serving music and readings were furnished by members of the class. These lessons gave the parents a chance to observe a class at work, and it also gave an opportunity for teachers and parents to become acquainted.

The questions are often asked, "What becomes of the food the class cooks?" and "Who washes the dishes and does the cleaning?" So it may be well to explain the procedure of a lesson. Usually the class recites on the previous lesson; the new recipe for the morning is read and directions given. The recipes are large enough to serve four or six people. Two girls generally work together and prepare a fraction of the whole recipe, or just enough to serve themselves. The cleaning is assigned to pupils in turn. Each day two girls wash dishes and clean the sinks, four girls wipe dishes and wash dish towels, one tends to the fire and does the baking, one puts away materials and scours tables, and one sees that utensils

are put in order in the cupboards. The remainder of the class put away dishes and do whatever needs to be done, such as cleaning knives and polishing brass.

Cooking is required in the ninth grade and elective in the High School. Sewing is required in Grades VI, VII, VIII, and must be taken by High School pupils who elect cooking. In the sixth grade all the plain stitches are taught on a piece of cloth and then put into a sewing-bag and apron; later they make a petticoat. In the seventh grade they learn machine stitching, buttonholes and darning, and make long aprons for themselves.

The eighth grade girls do patching and make aprons, holders, towels, and caps to be used in cooking the next year, and underclothes.

The High School girls have a choice of making underwear, waists, or wash dresses. Before Christmas they made a few fancy articles and did a little embroidery.

In all classes the pupils furnish their own cloth, and needles and thread are furnished by the school.

The girls are all interested and enthusiastic, and there are many of them who promise to make good house-keepers.

Respectfully submitted,

MARTHA TOWER.

ARTICLES OF THE TOWN WARRANT

MARCH 3, 1913.

Article 1. To choose a moderator to preside in said meeting.

Article 2. To choose all necessary Town Officers and Committees:

Article 3. The Votes for Town Clerk, Treasurer, Collector, Auditor, Selectman, Assessor, Overseer of the Poor, School Committee, Town House Committee, Cemetery Commissioner, Trustees of the Fay Library, Highway Surveyor, Tree Warden, Constable and Board of Health to be on one ballot.

The polls will be open for the election of Officers at eight-fifteen o'clock in the forenoon, and may be closed at two-thirty o'clock in the afternoon of said day.

The following Officers to be chosen by ballot: Town Clerk, Treasurer, Collector, Auditor, Selectman for three years, one member of the School Committee for three years, one Overseer of the Poor for three years, Tree Warden, Highway Surveyor. Three members of the Town House Committee, one member of the Cemetery Commissioners for three years, one member of the Board of Health for one year, one member of the Board of Health for two years, one member of the Board of Health for three years, Constables, and two Trustees of the Fay Library.

Article 4. To vote by ballot. Yes or No on granting license for the Sale of Intoxicating Liquors.

Article 5. To raise such sums of money as may be necessary for the legitimate use of the Town, and make appropriations of the same.

Article 6. To hear the reports of Town Officers and Committees, and do or act thereon.

Article 7. To determine the manner of collecting the taxes for the ensuing year, or pass any vote respecting the same.

Article 8. To see if the Town will authorize its Collector to use all means for Collecting the Taxes which a Town Treasurer may use when appointed a Collector.

Article 9. To see if the Town will authorize its Treasurer to hire such sums of money as may be necessary for the Towns use and pass any vote respecting the same.

Article 10. To see what disposition the Town will make of the Dog Money, and pass any vote respecting the same.

Article 11. To see if the Town will authorize the Selectmen to defend any Suits which may be brought against the Town, and to prosecute any Suits in behalf of the Town, or do or act thereon.

Article 12. To see what action the Town will take to suppress the illegal Sale of Intoxicating Liquors, or do or act thereon.

Article 13. To see if the Town will appropriate the sum of one hundred dollars to be expended by Post 44, Grand Army of the Republic, for defraying the expenses of Memorial Day, and repairing and decorating soldiers' graves.

Article 14. To see if the Town will appropriate the sum of fifty dollars to be expended by Post 44, Grand Army of the Republic, in accordance with Section 15,

Chapter XXV, of the Revised Laws, or pass any vote respecting the same.

Article 15. To see if the Town will appropriate a sum of money necessary for Street Lighting, and pass any vote respecting the same.

Article 16. To see if the Town will authorize the Selectmen to contract for Lighting any Street or Road not now provided with lights, or pass any votes respecting the lighting of streets, roads, or ways.

Article 17. To see if the Town will appropriate a sum of money for Transporting Books from the Fay Library to the villages of Cordaville and Southville, or authorize the Trustees to transport said books, or pass any vote respecting the transporting of books from the Fay Library and distributing books in any of the villages in the Town, or do or act thereon.

Article 18. To see if the Town will authorize the Selectmen to represent the Town before the General Court in All Matters Regarding Taxation, and to employ counsel as may be necessary to protect the interests of the Town or pass any vote respecting the same.

Article 19. To see if the Town will appropriate any sum of money unexpended from any special appropriation of last year, if needed to complete any work, or purpose for which said appropriation was made.

Article 20. To see if the Town will establish the Salary of the Highway Surveyor for the ensuing year or do or act thereon.

Article 21 To see if the Town will appropriate a sum of money to be expended in Rebuilding or Repairing Parkerville Road between the Boston and Worcester Street Railway and Main Street, or pass any vote respecting the same.

Article 22. To see if the Town will appropriate a sum of money to Complete the New School House and Grounds in Southville, and to pay overdrafts on account of Said School House, or pass any vote respecting the same.

Article 23. To see if the Town will revoke the action of the Town whereby it voted to accept Section 336 of Chapter 11, or corresponding provisions of earlier laws pertaining to the election of Highway Surveyor.

Article 24. To see if the Town will choose a Committee to purchase Coal or other Supplies for the several departments of the Town or do or act thereon.

Article 25. To see if the Town will instruct the Highway Surveyor to build Sidewalks in any Village in the Town and appropriate money for the same or do or act thereon.

Article 26. To see if the Town will appropriate money for reshingling the Fire House in Southboro Center, or pass any vote regarding repairs thereon.

Article 27. To see if the Town will appropriate a sum of money for the repair or rebuilding any part of Main Street, or pass any vote respecting said Street.

Article 28. To see if the Town will request the Highway Surveyor to cause the brush on the borders of any of the Highways to be removed, or pass any vote respecting the same.

Article 29. To see if the Town will ratify and approve of payments by the Treasurer of overdrafts made by any Committee or Department as appear in the Auditors report for the year 1912, or do or act thereon.

Article 30. To see if the Town will choose a Committee of three or more persons, to examine into the finances of the Town and the administration of the

various Departments and report to the tax payers before Jan. 1, 1914, or pass any vote respecting the same.

Article 31. To see if the Town will so amend its By-Laws as to provide notice of all Special Town Meetings to all voters by post card or otherwise, or do or act thereon.

Article 32. To see if the Town will appoint a Committee to negotiate with the Metropolitan Water Board regarding use by the Town people of the State Lands within the Town of Southboro, or pass any votes concerning the same.

Article 33. To see if the Town will appropriate money for Play Grounds, or do or act thereon.

THIRTY - NINTH

Annual Report

OF THE

AUDITOR

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31

1912

SOUTHBOROUGH PRINT SHOP
SOUTHBOROUGH, MASS.

Auditor's Report.

I herewith present the thirty-ninth annual report of the Town Officers and Committees for the financial year ending December 31, 1912.

During the year fifteen hundred orders were drawn and charged to the various appropriations.

All bills against the Town should be sent in promptly after the first of the month, and all bills should have noted thereon the department for which they are intended, and must be itemized.

I earnestly recommend the installation of the voucher check system in the payment of town bills so that the original bills may be promptly filed as soon as paid. Under the present system many of these are never receipted and returned thus making our files incomplete.

Respectfully submitted,

CHAS. E. BAGLEY,

Auditor.

Cattle Inspector.

In the general inspection of Live Stock in the Town of Southboro the past year, I inspected ten hundred and eighty-five head of cattle, one hundred and twenty swine, and sixteen sheep, at a total of ninety stables. The majority of cattle were in good health.

Three cows and one horse were condemned and killed by the State.

Respectfully submitted,

SILAS G. ALLEN,

Inspector of Southborough.

Report of Town House Committee.

Town House Committee.

Report of Fayville Hall Committee.

In submitting the following report to the voters of the town we wish to have them note that the amount of sixty dollars \$60.00 paid in former years for rent of the engine house, and other expenses in various amounts for heat, light, and janitor service, should be deducted from the overdraft of \$151.19 in order to determine the net expense of the building to the taxpayers.

J. M. METCALF,
Treasurer.

Report of the Trustees of Fay Library.

It is with a deep sense of loss that we record the withdrawal of Reverend Mr. Rockwood from our board. He has served the Library and the Town faithfully and well, with no thought of reward save the satisfaction which comes from public service honestly rendered for the public good. We here express our appreciation and our thanks.

During the past year we have taken a long stride forward, having moved from the cramped quarters in the town hall into the new building which is proving itself admirably adapted to our present needs and capable of meeting all requirements for many years to come. The increased space at our command and plan of the library has enabled us to give to the readers free access to the books. This means that anyone wishing to use the library can see for himself what books we have and can choose what books he will draw. Acquaintance with the books on the shelves necessarily gives one a better idea of the library's resources than could be obtained from any catalogue, however perfect it might be.

Free access to the books and an increase in the number of hours during which the library is open have resulted in an increase of eighty per cent. in the circulation. The average circulation per week from January 1st to August 3d was 125, and from September 20th to December 31st was 225.

Over six hundred books have been added during the year. This unusually large number is in good part due to the liberal gifts of Mrs. Eugene Fay, Dr. Francis L. Burdett, Charles F. Choate, Jr., Esq., and Mr. and Mrs.

Charles A. Kidder. Mrs. Fay's gift included many books and papers connected with the life and work of the Honorable Francis B. Fay, the founder of the library.

Other gifts which are gratefully recorded here are the busts of Longfellow and of Lowell from Mr. and Mrs. Waldo B. Fay; a clock from Mr. and Mrs. Robert M. Burnett; the pictures of Washington and Lincoln, from the Southborough Grange; and the picture of Martha Washington from the Southborough Woman's Club.

The sets of the Town Auditor's and Assessors' Reports have been completed and bound. We make an earnest appeal for pamphlets, reports or other printed matter which refer to local history or town affairs. Such material which is too often lost or destroyed in the home may prove of great value when preserved for public use in the library.

Our funds for the purchase of new books are necessarily limited. The Book Committee therefore gladly welcome from anyone suggestions which may help them in choosing books which will prove suitable for the library and of permanent value.

Library Building Committee.

36 INDIA STREET, BOSTON, MASS.,

January 13th, 1913.

Your Committee respectfully submit the following report: We have expended as follows:

| | |
|--|-------------|
| J. E. Warren & Co., contractors, | \$28,448 13 |
| Alfred Cookman Cass, architect, | 2,446 06 |
| Snead Iron Co., book stacks, | 2,087 00 |
| Mellish & Byfield M'f'g Co., furniture, | 854 00 |
| Edward Burnett, grading, | 907 43 |
| S. G. Allen, grading | 74 07 |
| Edw. F. Caldwell & Co., lighting fixtures, | 710 99 |
| Simpson, Crawford Co., curtain, | 126 52 |
| Morse & Bigelow, hanging curtain, | 10 00 |
| Procter Electric Co., | 9 93 |
| Persian Rug Co., rug and mat, | 130 50 |
| | \$35,804 63 |
| Amount received as gift, | 804 63 |
| | \$35,000 00 |

Besides which we gratefully acknowledge the following gifts:

The busts of Longfellow and Lowell, from
Waldo B. Fay, Esq.

The clock from Mr. and Mrs. Robert M. Burnett,

The pictures of Abraham Lincoln and George
Washington, from the Southboro Grange.
The picture of Martha Washington, from the
Southboro Woman's Club.

The building was turned over to the Selectmen in
September, 1912, and we believe is a modern up-to-date
fire-proof library. Owing to the delays of the contractor,
we were unable to finish it as soon as we expected.

Yours respectfully,

HARRY BURNETT,
DANIEL F. HARRINGTON,
FRANCIS WRIGHT,
EDWARD F. COLLINS.

W. C. SIMPSON

Sealer of Weights and Measures.

Tree Warden's Report.

36 INDIA STREET, BOSTON, MASS.,

January 10th, 1913.

Your Tree Warden respectfully submits the following report:

I have expended for supplies and labor—

| | |
|--------------------------------|--------|
| H. A. McMaster & Co. | 14 78 |
| A. C. Lamson, | 3 00 |
| Eastern Drug Co., | 22 50 |
| Eagle Oil & Supply Co. | 1 35 |
| H. T. Balfour, | 3 50 |
| H. W. Young & Co., | 4 47 |
| W. A. Gould, | 110 46 |
| Marlboro Rubber Co., | 3 00 |
| Francis Wright, | 1 54 |
| Boston Woven Hose & Rubber Co. | 5 84 |
| Labor (total) | 582 94 |

Total Tree Warden Account. 753 38

I have expended on the Gypsy and Brown Tail Moth Work—

| | |
|----------------------------|---------|
| Adriance, Platt & Co., | 5 00 |
| Fred E. Hall & Co., | 5 50 |
| Southboro Print Shop, | 8 10 |
| A. C. Lamson, | 19 00 |
| Kenniston Engineering Co., | 6 66 |
| Labor Total, | 2591 79 |

Total Gypsy and Brown
Tail Moth Acct. 2636 05

To offset these amounts there is the appropriation—

| | |
|---------------------------------|----------|
| Tree Warden and | |
| Gypsy and Brown Tail Moth, | 1500 |
| Received from State, (for Gypsy | |
| and Brown Tail Moth suppression | \$682 26 |
| Moth tax, | 1076 54 |
| Private Spraying, | 91 73 |

Your Tree Warden has had to do considerable work in cutting down and removing decayed and dead trees from the Highway.

We have had an unusual infestation of Elm Tree Beetles and it took a lot of time and labor to spray them.

We seem to be gaining on the Brown Tail Moths.

We are very much in need of a new spraying machine.

The State Forester's office has offered us a first class one, costing the State \$1500 to \$1600. That is, to add \$600 to the amount we must expend before we get any State Aid. I would ask, therefore, for the Tree Warden \$500 to be expended at his discretion; and for the Gypsy and Brown Tail Moth work I would ask for \$1,500 and \$500 towards the new spraying machine.

Yours respectfully,

HARRY BURNETT,

Tree Warden.

Selectmen's Report for 1912.

During the past year the Selectmen have conducted several liquor raids and secured four convictions. It is very difficult under the law to convict, as the actual passing of money must be witnessed. Your Board will continue its work in this direction and use its best endeavors to keep the illegal sale of liquor down in the town.

The Board has taken up with the City of Marlboro and the neighboring towns the question of the reduction of the price of electricity both for street lighting and house lighting. We feel that with a united effort of the several towns, with good expert advice, we will be able to secure, within the next few months, a material reduction in the price of electricity. Several meetings have been held at the City Hall, Marlboro, and representatives from the towns of Southboro, Framingham, Hudson, Maynard and the city of Marlboro, have been present, and when the facts are properly prepared they will be presented to the State Board of Gas and Electric Light Commissioners.

The question of five cent fares has also been discussed at these meetings.

The Board feels that the closeness of interests of the neighboring towns we will be able to accomplish much more for the town than if each town acted separately.

The Selectmen granted a franchise to the Framingham, Hudson and Marlboro Gas. Co. for a right to lay their pipes through the town from Framingham to Marlboro. According to a vote passed at the Town Meeting, the Town Treasurer, with the advice and consent of the Selectmen, sold \$15,500, of serial notes, payable two thou-

sand dollars yearly. Of this amount ten thousand dollars was for the Library, and five thousand five hundred dollars was for the South Union Schoolhouse. The Treasurer has also invested fifteen hundred dollars, funds of the Fay Library which he had in his hands, and on which the Town was paying interest at the rate of six percent on five hundred dollars and seven percent on a thousand.

The Board of Selectmen again wish to urge upon the taxpayers of Southboro the necessity of economy in the expenditures this coming year. The bond of indebtedness of the town is now \$25,500, of which four thousand dollars has to be paid over each year, and the interest besides. The tax rate was raised last year, and if rigid economy is not practised, will be higher this year.

The same determined effort is being made before the Legislature to change the tax laws, for the state to take away from cities and towns the corporation tax which they now receive. Your Board is fully alive to the acute situation, and is watching it with the utmost care, as the loss of the corporation tax to the Town of Southboro would make a doubling of the tax rate.

The Town at the November election accepted the Act to Pension Laborers who work for the town. This may mean an additional expense to us, and we must make arrangements to take care of this additional expense.

The Selectmen wish to call attention to the condition of the macadam road through the middle of the town (Main Street) and want to see what the Town will do about putting this in proper condition. No money was spent on it this year, and heretofore most of the money that has been spent on it has been mostly by private subscription. The Town has expended so much money to build this road that the Board feel that it should be kept

in the best possible condition and have therefore inserted an article in the Town Warrant to that effect.

Respectfully submitted,
 FRANCIS D. NEWTON,
 JOHN T. BURNETT,
 PAUL S. LINCOLN,
 Selectmen.

Annual Report

OF THE

School Committee

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31

1912

Report of the School Committee.

Our financial statement follows: The increase in cost of transportation is not as large as it appears as one bill from the Boston and Worcester Street Railway Co., of last year was overlooked and another was carried over. At the same time this is an item that is ever increasing and if in some way the cost could be reduced the amount saved could be otherwise used to very good advantage.

Miscellaneous expenses were larger than usual on account of insurance on boilers and because of plumbers bills which are always large. The interior of the Fayville building was thoroughly renovated by the use of fresh paint and varnish. The extra expense of the Industrial School was well invested and will return large dividends in increased efficiency. With this work, our complete Commercial Course, and our well-equipped laboratory our pupils are being well prepared for whatever future work they may wish to undertake.

The new building at the South part will not make an increase in the teaching force necessary but will add to the cost of janitor service and probably of fuel. We recommend an appropriation of \$12,500 for general school purposes for the current year.

The new well at Peter's High School furnishes an adequate supply of water but at present the quali-

ty is not satisfactory for drinking purposes. We hope that with further pumping it may improve.

Respectfully submitted,

S. H. HOWES,

D. F. HARRINGTON,

F. A. FLICHTNER,

School Committee.

Report of the Building Committee on New School Building in South Part of Town.

The beginning of the year Nineteen Hundred and Thirteen marks an epoch in the schools of Southville and Cordaville, With the opening of the handsome new building your Committee have at last succeeded in placing the schools in that part of the town in the same standing as those in the Centre. Incidentally we might add that the erection of this building has settled a very important question that has been agitated and asked of the Committee during the past twelve years, viz: "When will the town vote to erect a building to consolidate the schools of these two villages?"

For the advantage of those who have not had a chance to visit this building, we take this opportunity to give a brief description of this important work. It is perhaps the first building of its kind in the State. Not only are there three school rooms, but there is a public hall that will seat two hundred and sixty-five people, a branch of the public library with stacks to hold from 1500 to 2000 volumes; also a room for Domestic Science. Situated as it is midway between the villages, on high elevation, it makes a splendid appearance. It is lighted throughout by electricity and is wired for electric clocks and telephones and equipped for vacuum cleaners.

Under consolidation we have three schools of three grades each, including the ninth grade. The new building has not only properly graded our schools in the South Part, but it has also inspired new life and enthusiasm in the work of teachers and pupils. Proper heating, ventilating and sanitary arrangements have also added to the health and comfort of the children. Indeed, what better or more important improvement can be made in any town than the erection of a modern and thoroughly up-to-date new school building. Moreover, as a well-known school authority has so well said, "The environment of the child is a silent but none the less masterful teacher."

How often unscrupulous people will criticise every possible improvement in school work. Some have had children but they no longer attend school. They are the first to claim that the old school buildings and old methods are good enough. This is the age of progress. Every town is doing its utmost to outdo the others. This requires better and more improved conditions or the standing of our schools will gradually decrease in comparison with that of our more progressive neighbors. We are glad to say that the people of Southboro realized this danger and by their activity and generosity have given the south part a building that is an honor and a credit to the town, and one that any citizen who has the interests of the schools at heart will fully appreciate.

We invite all to make a thorough inspection of this work, and believe that after doing so, the most skeptical will agree that Southboro has added one more building to its quota that is second to none of its size in Massachusetts.

 F. A. FLICHTNER,

Report of the Superintendent of Schools.

*To the School Committee of the Town of South-
borough.*

GENTLEMEN : This is my third annual report as Superintendent of Schools, and the twenty-third in the series of such reports.

RE-ORGANIZATION OF THE GRADES IN HIGH SCHOOL BUILDING.

A re-distribution of the elementary grades among the rooms of the High School Building made it possible at the beginning of the current school year to secure a more effective program for the teachers of the High School, and at the same time to effect a more advantageous allotment of the grades among the elementary teachers. Previously Room I, accommodating Grades I, II, III, was in charge of one teacher and an assistant. Rooms II, III and IV accommodated Grades IV and V, VI and VII, and VIII and IX respectively. The new alinement places Grades I and II together in charge of a teacher who occupies the room previously used by the primary assistant. The other elementary grades are grouped in twos, two grades to the teacher, leaving Grade IX by itself in charge of a teacher who also handles all

of the English work of the High School. The benefits of this plan are accomplished without any addition to the salary list.

THE TEACHING FORCE,

The past year has witnessed only four changes in the teaching force. Misses Le Poer, Prescott and Barry, and Mr. Calderwood, the supervisor of music, resigned during the year to accept positions elsewhere. Their successors' names appear in the tables at the end of this report. In September Miss Dodd was transferred from Southville Primary School to Grades III and IV of the High School Building and Miss Reagan returned after a year's leave of absence to her former position. The new teachers have taken up their work in the right spirit and all are working together harmoniously and effectively.

THE QUESTION OF SALARIES.

Any far reaching improvement in the tone and the character of the output of our schools demands on the part of the teachers a fine skill in instruction, capacity for increasing that skill, abundant enthusiasm and *continous service*. The reward, however, should be made commensurate with the merit. Every teacher should be allowed to hope through conspicuously excellent results and continuous service to reach finally a salary of at least \$600. Local teachers in

service elsewhere with excellent records of teaching experience would thus doubtless be attracted by the higher range of possibility in the way of salary, and their applications in case of vacancy should receive the same consideration that applications of others receive whose residence is not in Southboro.

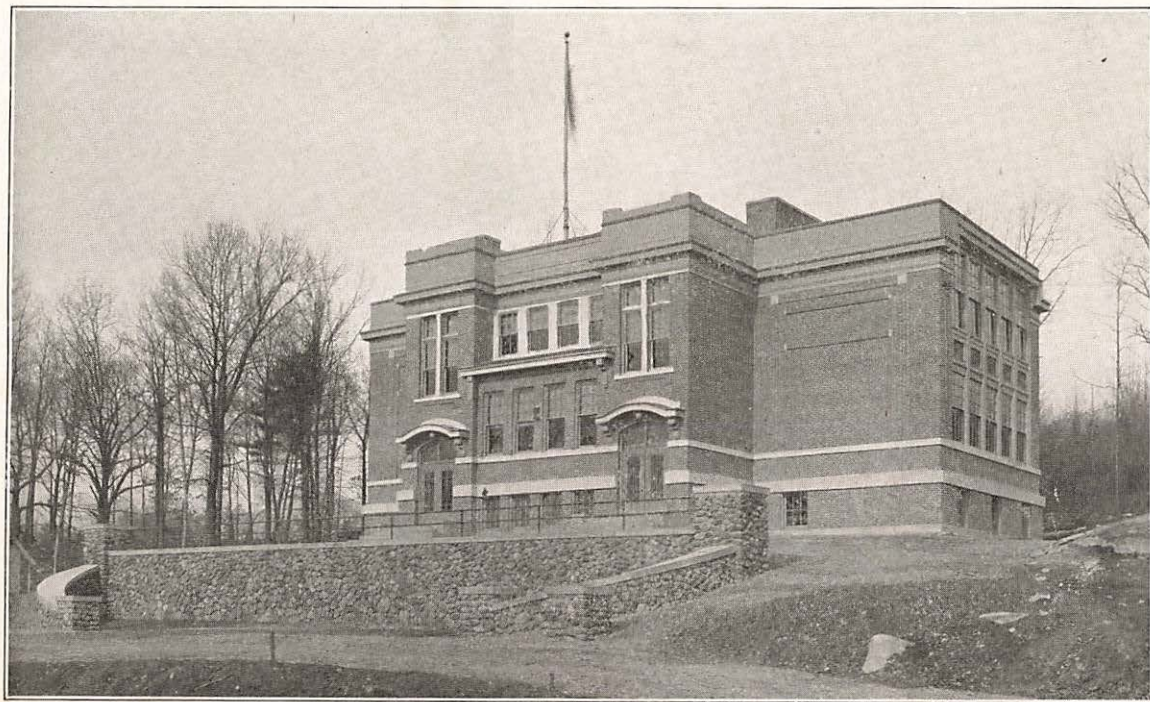

THE NEW BUILDING IN THE SOUTH PART.

The occupation of the new building by the schools of the South Part was made possible in December. At present it provides up-to-date accommodations for seventy-seven children distributed nearly equally in three rooms. The nine elementary grades are also equally distributed among the three class rooms, thus diminishing by one the number of grades to the teacher. The building is complete and satisfying. Pupils as well as teachers show well founded pride in their new school home. They are determined that their own endeavor and accomplishment shall tally well with their environment. The cuts of the building bound herewith will give a more nearly adequate idea of its appearance than any description at my command.

THE EXHIBIT OF HOME ENTERPRISES.

The exhibit of vegetables, poultry, sewing, cooking, canned fruits and articles of wood work, stimulated

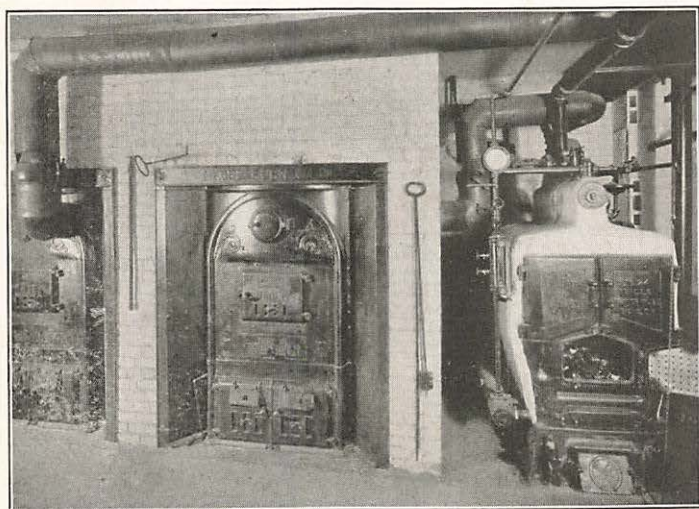

by the special appropriation of \$100.00, was held September 18 at the Town Hall. Prizes varying in size from twenty-five cents to \$1 were awarded to seven pens of poultry; 27 prizes varying from 25 cents to 75 cents were awarded on the wood-working exhibits; 12 exhibits of jellies, canned fruit and canned vegetables received \$4.75 in prizes; 10 exhibits of cooking, mostly bread and cakes, were awarded \$5.25; stories and miscellaneous articles received \$1.75; 46 exhibits of vegetables, ranging all the way from corn and potatoes to peanuts, tobacco and celery, received \$13.75; 30 pieces of sewing and embroidery were awarded \$17.50; and 10 collections of flowers received prizes varying from 5 cents to 75 cents. About eighty children provided one or more articles for the exhibit. The work of seventeen children also received prizes aggregating \$10.75 at the Fair of the Middlesex South Agricultural Society held at South Framingham, Sept. 19, 20, and 21. Much credit was won by the children for the enterprise they showed throughout the season. The work of the local committees and judges, whose interest and effort was so necessary to the success of this line of work is thoroughly appreciated. Special mention should also be made of the excellent work of Mrs. A. W. Hosmer who acted as secretary and treasurer of the local exhibit and also as caretaker of the Southboro exhibit at South Framingham.

NEW SCHOOL BUILDING.

CLASS ROOM

HEATING PLANT

SOME ITEMS FOR CONSIDERATION.

TRANSPORTATION.

The item of transportation holds no insignificant position in the expense account of the schools. Under the present method of conveying the children to their schools, I do not see that this item of expense can be reduced. However, barring the one obstacle of deep snow during a few days of winter, it seems to me that a saving of four or five hundred dollars a year could be effected by the use of a motor truck for the conveyance of pupils who are now transported in the three team barges.

The items below show the yearly expense of the present method of conveyance and the estimate of the probable yearly expense of operating a motor truck for the same purpose.

Cost of operating the three barges one year
\$ 1,520.

| | | |
|---|--------|--------------|
| Outlay (first cost of truck per year) | \$ 250 | |
| Interest on same per year at 4 per cent. | 10 | |
| Tires (a new set each year) | 200 | |
| Repairs | 50 | |
| Gasoline (2 gal. per day at 18 cents, for 200 days) | 72 | |
| Driver per year | 500 | \$ 1,082 |
| Balance in favor of motor truck, | | <u>\$438</u> |

In view of these figures I think this matter is worthy of consideration.

A SPECIAL TEACHER FOR SLOW PUPILS

For some years in the larger centers much attention has been devoted to the slow pupils, such as do not profit fully by the class instruction and thereby fall behind their class, get discouraged, and leave school at the earliest possible moment. The problem has been met in various ways, but the one which has seemed to yield the best results is the plan by which a special teacher meets comparatively small groups of slow pupils from the various grades and carefully and slowly presents the subject matter which the pupils of a group find difficulty in understanding. Some pupils are slow in only one subject, some in two subjects, and some are slow in all subjects. Whatever the difficulties are the problem is studied by teachers, principals, and superintendent, and a daily program of work with the slow pupils is devised which is designed to meet the requirements of those most needing the help of the teacher of the "special class". In the schools of Southboro without such a teacher it becomes necessary each year to promote a few pupils who are not fully prepared for the work of the succeeding grade. The ill-preparedness of these pupils is cumulative year by year finally resulting on the part of the pupil in indifference and discouragement.

To require these pupils to repeat the work of their grade would in many instances compel their association in recitation with pupils much younger than themselves, a condition not at all conducive to a studious spirit nor to the children's own self-respect, especially in the elementary grades. A teacher for the "special class" would in Southboro prove a factor in efficiency the value of which can hardly be overestimated.

THE PRIDE OF SCHOLARSHIP

The last item I wish to present for consideration is what I may term the pride of scholarship, especially as it relates to the work of the High School. I fear there are too many pupils who are actuated rather by whatever satisfaction can come from "just squeaking through" their courses than by the well rounded pride of scholarship which is the inspiration of every best effort in school work. In this connection we should not lose sight of the influence of the character of the teaching, but I know, and the public knows, the teachers are doing their full duty, and are discharging their full responsibility.

As I suggested above there would seem to me to be a need of the development of a larger pride of scholarship among our pupils. As I see the problem there are three principal lines of approach by which the further development of a pride of scholarship is to

be effected. The first line I will mention is administrative in character, and is to be worked out by co-operation of teachers, High School Principal, Superintendent and School Committee in revising the program of the High School so that it will accommodate itself more readily to the varying aims, needs and capacities of the pupils. Our present program, which is much like the programs of hundreds of other high schools, needs such a revision as shall make it possible, while requiring no further additions to the teaching force, for every pupil to carry the load which is adapted to his purposes and his strength.

My second line of approach to the development of a larger pride of scholarship is by way of the elimination of all unnecessary absences from the sessions of the school. This will require co-operation with the school on the part of the parents and that of a very positive sort, for the number of days of absence during the year is very large, as may be learned from the tables at the end of this report. The child who attends school irregularly, who loses even a single day in two or three weeks, breaks the continuity of his lessons, loses some of them outright, holds back his class, and loses respect both for himself and for his school. Illness is, of course, a just cause for absence, and makes absence from school inevitable; but most other reasons for absence are not just nor necessary. It is difficult to develop pride of scholarship on irregular attendance, so we ask for co-operation on the

part of parents to bring about the elimination of all unnecessary absence from school.

The third line of approach in this development of a greater pride of scholarship also involves the co-operation of parents. It requires a definite interest on the parent's part in the particular course or group of subjects which the pupil proposes to pursue. It involves on the parent's part such an interest in the pupils' successes and failures as shall somehow make an impression upon both teacher and pupil. The aims of the school and home in relation to the pupil's well being are too nearly identical to allow independence of action even for a day.

CONCLUSION.

In conclusion I would call attention to the reports of the principal of the High School, that of the manual training teacher, and that of the medical inspector. The statistical data should also be carefully considered.

I appreciate the cordial support of the School Committee and the hearty co-operation of the teachers in all the varied work of the Schools of Southboro.

Respectfully submitted,

FREDERICK B. VAN ORNUM.

Superintendent of Schools.

Northboro, Mass., January 27, 1913.

Report of Principal of Peters' High School.

TO THE MEMBERS OF THE SCHOOL COMMITTEE OF
SOUTHBORO, MASS :

GENTLEMEN—As principal of the Peters' High School I herewith present for your approval my report for the school year of 1912, exclusive of January. I assumed my duties as successor to former Principal Linwood L. Workman on Monday, January 29th, and with the hearty co-operation both of the teachers and of the pupils which I then received, and since then have continued to enjoy, the routine of the school continued with its customary smoothness.

At that time the membership of the school by classes was as follows :

| | College Prep. | Commercial | General |
|------------|---------------|------------|---------|
| Seniors | 4 | 4 | 3 |
| Juniors | 2 | 8 | 2 |
| Sophomores | 4 | 8 | 2 |
| Freshmen | 2 | 4 | 0 |

Upon examination of the course of studies as drawn up by my predecessor, it was manifestly so well adapted to local conditions that I deemed it expedient to continue it unchanged. The personnel of last year's senior class so influenced the rest of the school for good that the traditional privileges were not

abused, and deportment on the whole was very satisfactory.

The generosity of the townspeople, the boys of the St. Mark's and Fay Schools and the liberality of Mr. Choate and Mr. Burnett, enabled the Senior class to take a trip to Washington during the Easter vacation. While no doubt the trip was a source of enjoyment to the pupils who went, yet we are inclined to think that it is questionable if the educational value which accrues to the pupil of High School age justifies the extremes to which it has been necessary to go in order to secure sufficient money to defray the expense of such a trip. Actual experience has taught the writer that the pupils on such an excursion are prompted rather by the trivial desires which the temporary freedom from restraint arouses in them rather than by the wish to acquire knowledge of an enlightening character. Unless the necessary funds for this customary trip can be secured solely by student activity, without imposing on the generosity of certain of our citizens, I deem it prudent that in the future the excursions should be discontinued.

After the Easter holidays, the school work was taken up with interest and pursued to a successful completion in June when a class of ten was graduated. At present the members of that class are engaged as follows: Pharmacy School 1, Agricultural College 1, Wentworth Institute 1, Kindergarten teacher 1, Stenographers 2, Clerks 2.

Shortly before the close of the Spring term, Superintendent Van Ornum, your principal and the High School teachers, revised the course of studies with the result that additional periods a week were provided for all the English classes and for certain classes in the Commercial department.

The Fall term of the school year 1912-1913 opened with a registration of 16 Freshmen, 4 Sophomores, 13 Juniors and 11 Seniors. The classification by courses is herewith presented.

| | College Prep. | Commercial | General |
|------------|---------------|------------|---------|
| Freshmen | 13 | 3 | 0 |
| Sophomores | 5 | 7 | 2 |
| Juniors | 2 | 8 | 2 |
| Seniors | 2 | 5 | 4 |

A most gratifying feature was the comparatively large number of pupils who elected the college preparatory course. For a number of years past, the commercial course has proved the most attractive of those offered, with the result that but few of our pupils have entered higher institutions of learning after graduation. I might say at this point that this is the reason why we have not received the certifying privilege from the New England College Entrance Examination Board. As Mr. Workman stated in his report last year, a school cannot apply for the certificate until at least three of its graduates are in attend-

ance and in good standing in one of the allied colleges and continues to send every year thereafter, at least one of its graduates to one of the allied colleges. Inasmuch as circumstances are such that our graduates do not consistently from year to year enter higher institutions, we have been unable to meet the above mentioned requirements, and consequently have not become eligible for the certificate privilege.

Therefore, it is evident that our failure to enjoy the privilege is not due to scholarship, but rather to a condition which the teachers are not able to remedy. There is, however, no such obligation imposed upon us so far as receiving the Normal School certificate is concerned. The State Board of Education has ruled that the Principal of a high school may certificate graduates to any of the State Normal Schools, provided the agent of that board has inspected and recommended the school. So far as I know, our school has been denied the right to certificate pupils in past years, because the agent of the Board of Education has not been satisfied with the attitude of some of the pupils. We are in hopes this year of meeting all the requirements necessary for the granting of the privilege, and I can assure the townspeople that the teachers are sparing neither time nor energy to see that end attained. But owing to the fact that in a school as small as ours, every deficient pupil detracts very appreciably from the general standing,

particularly in subjects where the classes are small, our success is likely to be problematical.

CHANGES AND IMPROVEMENTS.

The course of studies which is appended to my report provides for the additional work in English and Commercial subjects, which has been mentioned before, as well as a broader scope in all other departments. When I began my work in February, I found that the commercial teacher, in addition to her regular duties, was obliged to teach the English courses. Under such conditions the work could not be done to the satisfaction of the teacher without taxing her energy to its greatest capacity. Upon my suggestion, Supt. Van Onum arranged the lower grades so that the ninth grade teacher, a Boston University graduate, was able to take charge of our entire English department, and the success of the venture has proved that it was well advised.

The commercial teacher has been given an opportunity to devote more attention to her stenography and bookkeeping classes with the result that highly efficient work is being accomplished in all the classes.

APPARATUS FOR THE LABATORY.

One of the perplexing problems of the small high school, with its limited appropriation, is to provide scientific apparatus which will enable the instructor

to give the pupil the necessary amount of laboratory experimentation demanded by the college entrance requirements of the present day. We seem to have reached a practical solution of the difficulty. Through the co-operation of the manual training instructor it has been possible for the boys of the school to construct from diagrams submitted by the instructor, a number of pieces of laboratory apparatus which have proved efficient and inexpensive. Perseverance in following out this plan, in addition to giving the boys a good, practical training in the construction of apparatus, will result eventually in furnishing the laboratory with a fairly complete equipment.

REPORT CARDS.

A report of the work of the high school pupils has been issued every four weeks instead of every ten weeks as heretofore. I believe that this practice has many distinctive advantages, in as much as it keeps the parents in closer touch with the school work of their children and enables them to take decisive action if the children are not maintaining a satisfactory standing.

STUDENT ACTIVITY.

A staff of student-editors under faculty supervision has published the third volume of THE INDEX. From a literary standpoint we feel quite certain that it may compare favorably with the publications of even

larger high schools, but our financial success is by no means on a par with our literary success. We have received the cordial support of the Southboro business men and many firms in neighboring towns. Even with the assistance of the latter its financial position is rather precarious. However, we have managed by hard work to make both ends meet, and this experience ought to be of some real value to the members of the business staff.

ATHLETICS.

As in past years the only branch of athletics in which the school has been represented was basketball. We have had both a first and second teams, and they have succeeded in winning a majority of their games. The attitude of the players toward their studies has on many occasions necessitated faculty intervention, which resulted in the cancellation of certain of the games, or a temporary suspension of the schedule.

* * * * *

In concluding my report I would add just a word. There are three primary requisites for the good standing of any pupil: sufficient outside preparation, regular attendance, and punctuality. I would urge the parents to see to it that their children spend at least two hours a day in outside preparation

and prevent unnecessary social activities from interfering with this absolutely essential home study. Secondly, let the parents make every endeavor to reduce unnecessary absence of their children to a minimum ; and finally, to encourage punctual attendance at the school session.

Permit me on this occasion to express my gratitude to the School Committee, to Superintendent Van Ornum, and Mr. Linwood L. Workman, for the valuable assistance they have afforded me, and to extend my thanks to Mr. John Lowry, our janitor, for his accommodating spirit and for the valuable services he has rendered us.

Respectfully submitted,

HENRY J. McSHERRY.

Classification by occupation of graduates from 1907 to 1912: Teachers, 5; Stenographers, 7; Bookkeepers, 5; Clerks, 2; Students, 10; Nurses, 3; chauffeur, 1, Printer, 1; Fanmers, 4; Electrician, 1; Actress, 1; Married, 6; At home, 3; Deceased, 1.

Report of Manual Training Instructor.

The exhibition of work done in the manual training course was held last spring and gave the parents of the boys and the townspeople an opportunity of seeing exactly what is being done. This exhibition was largely attended.

The past year has witnessed a great and growing interest in this department. This is evidenced by the demand for extra time in the shop that many of the boys have made and their great enthusiasm in taking up not only the prescribed work, but also other work outside of the course.

They have learned that good work requires good tools, and, as a result, keep the shop and equipment in good condition.

The work has been made as practical as possible and tables and apparatus for the chemistry and physics laboratories have been made by the boys. This year the lady teachers' room in the high school building will be supplied with furniture made by the boys.

The desire for investigation into principles of mechanics and the practical application of these has led many of the boys to become subscribers to various mechanical and technical magazines.

A partial list of work already completed includes clothes sticks, string winders, match strikers, pencil sharpeners, rulers, key boards, foot stools, small boxes and toys done by the boys in grade six; postal card holders, match boxes, picture frames, watch holders, lunch boxes, coat and hat racks, bread boards, knife and fork boxes, done by the boys in grade seven; neck tie racks, whisk broom holders, shelves, candle sticks, string winders and flower boxes for class rooms, done by the

boys of grade eight; medicine cabinets, book ends, candle sticks, sleeve boards, bird houses, library tables, hand looms, taborets, carving boards, trays, whisk broom holders, flower stands, done by boys in grade nine; pen holders, pen trays, stamp boxes, blotter pads, paper knives, stationery holders, electric drop lamps, towel rollers, mallets, napkin rings, glove and stocking darners, bowls, boxes, card receivers, base ball bats, and many pieces of household furniture done by high school boys.

Respectfully submitted,

J. AUGUSTUS PRENDIVILLE.

Report of Medical Inspector.

To the Superintendent and School Committee of Southboro:

Gentlemen:

I herewith present my report as Medical Inspector of the Southboro Public Schools.

At the commencement of the fall term, all children in school were inspected.

Through the year I have visited the schools often to keep in touch with infectious and contagious diseases.

At this time I took the opportunity to ask the people of Southboro to please keep all of their children at home when there are any infectious or contagious diseases in the family.

The past year has been somewhat hard as a large number of complaints have come to me in regard to this matter, and on several occasions where I have come in contact with the patients, I have been informed that they were told by their medical attendants that the rest of the children could attend school.

The general condition of the children in school has improved over that of last year.

The following table reveals the extent of the prevailing chronic conditions:

| | |
|--|-----|
| Total enrollment, | 324 |
| Total number inspected, | 324 |
| Total number perfectly normal, | 225 |
| Total number of cases of malnutrition, | 18 |
| Total number having defective teeth, | 34 |
| Total number of chronic tonsilitis, | 47 |
| Total number not vaccinated, | 27 |

Total number of notices sent to parents which have been followed by operation or medical treatment looking towards relief of the diseased conditions found by the Medical Inspector, 8

Total number of notices of decayed teeth followed by dental treatment, 21

Respectfully submitted,

DR. WALTER A. SHAW,
School Physician.

ARTICLES OF THE TOWN WARRANT

MARCH 2, 1914.

Article 1. To choose a moderator to preside in said meeting.

Article 2. To choose all necessary Town Officers and Committees.

The votes for Town Clerk, Treasurer, Collector, Auditor, Selectmen, Assessor, Overseer of the Poor, School Committee, Town House Committee, Cemetery Commissioner, Trustees of the Fay Library, Highway Surveyor. Tree Warden, Constables, and Board of Health, to be on one ballot.

The polls will be open for the election of Officers, at eight-fifteen of the clock in the forenoon, and may be closed at three-thirty of the clock in the afternoon of said day.

The following officers to be chosen by ballot: Town Clerk, Treasurer, Collector, Auditor, one Selectman, for three years, one Selectman for two years, to fill vacancy caused by resignation of Paul S. Lincoln, one member of the School Committee for three years, one Overseer of the Poor for three years, Tree Warden, Highway Surveyor, Three members of the Town House Committee, one Cemetery Commissioner for three years, one member of the Board of Health for three years, Constables, Two Advisory Committee for three years, two for two years,

and two for one year, and two for Trustees of the Fay Library.

Article 3. To vote by ballot, "Yes or No" on granting license for the sale of Intoxicating Liquor.

Article 4. To vote by ballot on the question: Shall the action of the Town whereby it voted to accept Section 336 of Chapter 25 of the Revised Laws, or corresponding provisions of earlier laws, thereby providing for the election of a Highway Surveyor, be revoked.

Article 5. To raise such sums of money as may be necessary for the legitimate use of the Town and make appropriations of the same.

Article 6. To hear the reports of Town Officers and Committees and do or act thereon.

Article 7. To determine the manner of collecting the taxes for the ensuing year, and do or act thereon.

Article 8. To see if the Town will authorize its collector to use all means for collecting the taxes which a Town Treasurer may use when appointed collector.

Article 9. To see what disposition the Town will make of the Dog Money, or do or act thereon.

Article 10. To see if the Town will authorize the Selectmen to defend any suits which may be brought against the Town and to prosecute any suits in behalf of the Town, or do or act thereon.

Article 11. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 12. To see what action the Town will take

to suppress the illegal Sale of intoxicating Liquor, or do or act thereon.

Article 13. To see if the Town will appropriate the sum of one hundred dollars for defraying the expense of Memorial day, and for decorating and repair of Soldiers' graves, or do or act thereon.

Article 14. To see if the Town will appropriate the sum of fifty dollars, to be expended by Post 44, G. A. R. in accordance with Section 15, Chapter 25, of the Revised Laws, or do or act thereon.

Article 15. To see if the Town will appropriate a sum of money necessary for street lighting, and pass any votes respecting lighting of streets and ways.

Articles 16. To see if the Town will authorize the Selectmen to cause electric lights to be placed on School Street, or do or act thereon.

Article 17. To see if the Town will appropriate money for transporting books from the Fay Library to any village in town or do or act thereon.

Article 18. To see if the town will authorize the Selectmen to represent the Town before the General Court in all matters regarding Taxation, and to employ counsel as may be necessary to protect the interest of the Town or pass any vote respecting the same.

Article 19. To see if the Town will appropriate any sum of money unexpended from any special appropriation of last year if needed to complete any work for which such appropriation was made.

Article. 20. To see if the Town will establish the salary of the Highway Surveyor or pass any vote respecting salary of any Town Officers or do or act thereon.

Article. 21. To see if the Town will appropriate any sum of money to be expended for removing Wild Cherry and Wild Apple trees, from the Public Streets and ways or do or act thereon.

Article. 22. To see if the Town will accept the lay-out of a short piece of road built by the Metropolitan Water Board, and leading Southerly from Clemmons road, and being an extension of the road now called Pine Hill Road, or do or act thereon.

Article 23. To see if the Town will accept and adopt the report of the Selectmen upon the lay-out and widening of the Northerly terminus of High Street or do or act thereon.

Article 24. To see if the Town will do or act on the petition of the Marlboro & Hudson Gas Company for permission to lay and maintain pipes in the public ways for the distribution of gas, or do or act thereon.

Article 25. To see if the Town will appropriate a sum of money for the care, maintenance and repair of the Swimming Pool and the buildings belonging thereto.

Article 26. To see what action the Town will take regarding the Lock-up in Cordaville, or pass any vote regarding Lock-up.

Article 27. To see if the Town will authorize the School Committee to erect a fire escape on the High School Building and appropriate money for that purpose, or do or act thereon.

Article 28. To see if the Town will take any action regarding additional rooms at the Fayville School House, or appropriating any sum of money therefor, or do or act thereon.

Article 29. To see if the Town will provide for the free use of the public halls one night in each year hereafter to the several Fire Companies, or do or act thereon.

30. To see if the town will take any action regarding the observance of Old Home Week the ensuing year, or do or act thereon.

31. To see if the Town will appropriate a sum of money for the building of a New Fire Station in the South part of the town, or do or act thereon.

32. To see if the Town will vote to cut or open any part of the old road leading from Oak Hill road southerly to the house of Catherine Walnut as a public way, or do or act thereon.

33. To see if the Town will instruct the Highway Surveyor to make any change in the sidewalk on Oak Hill road, or do or act thereon.

34. To see what action the Town will take to provide for the care of the public Buildings in Fayville.

35. To see if the Town will authorize the Selectmen to have copies of the New By-Laws printed and distributed and to appropriate any sum of money therefor.

FORTIETH

Annual Report

OF THE

AUDITOR

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31

1913

SOUTHBOROUGH PRINT SHOP
SOUTHBOROUGH, MASS.

Auditor's Report.

I herewith present the fortieth annual report of the Town Officers and Committees for the financial year ending December 31, 1913.

Two thousand and sixty-one orders were drawn and charged to the various appropriations during the year.

In view of the report made by the Special Committee as a result of their investigation of town affairs, and the probability of a new accounting system being installed in the near future, no recommendations will be made by this department.

I wish to thank the Town Officers and several Boards for their co-operation during the year past.

Respectfully submitted,

CHAS. E. BAGLEY,

Auditor.

Cattle Inspector.

Southboro, January 5, 1914

In the general inspection of the cattle in the Town of Southboro the past year, I visited eighty stables and inspected ten hundred and eighty-five head of cattle, one hundred and thirteen swine, and twenty nine sheep, and found the majority in good health.

Five cows were condemned and killed by the state. I find that the sanitary conditions have been greatly improved over previous years,

Respectfully submitted,

SILAS G. ALLEN,

Inspector of Animals, Town of Southboro.

Town House Committee.

Fayville Village Hall.

Fayville, January 14, 1914.

To the Town of Southborough ;

Your Committee for The Fayville Village Hall have attended to their duties in caring for the building ; have made returns to your Treasurer of the receipts for use of the same, and can only report the privileges of having such a building appreciated and enjoyed by our residents and a benefit to our community.

Respectfully submitted,

JOHN H. McCLOSKEY, Chairman

(See financial report in Contingent account.)

Report of the Trustees of Fay Library.

The Trustees are glad to report that they have this year been able to run the Library within the appropriation granted; namely, \$1300.00, and expect to be able to keep within the same appropriation for the ensuing year for running expenses.

The Library, however, ought to be allowed more money by the Town for the purchase of books. Considering the amount the Town has spent on the building and the handsome and conspicuous feature which the Library constitutes in the Town, it is a little ridiculous to find that the only amount allowed for the purchase of books is one-half the dog money, amounting to \$166.00, and about \$60.00 income from the original bequest of Mr. Francis Fay, making a total of about \$226.00.

The Town has been so lavish with its schools, its highways, its play-grounds, etc., it ought to be able to afford a little larger annual appropriation for the purchase of good books of permanent value, and the Trustees desire to ask the Town to appropriate, in addition to the appropriations heretofore annually made, the sum of at least \$500. We believe that a larger proportion of the money expended annually should be expended for the purchase of books of real permanent value. While it is true that about eighty-five per cent. of the books taken out are made up of the ephemeral novels of the day, which, as a rule, are a source of at best but a few hours' amusement and are of no particular permanent value, a much larger percentage of books of real permanent usefulness, we believe, would be used by the townspeople.

if the Library possessed them. Unless, therefore, there is a distinct expression of a wish to the contrary, the Trustees propose to add annually more books of permanent value than heretofore.

During the year Miss Francena E. Buck, who had been for many years Librarian, has resigned and Miss Brewer has been appointed in her place; Miss Wadsworth has been appointed Assistant Librarian.

The Law Library, consisting of a full set of Massachusetts Reports, Statutes and Acts and Resolves, which formerly have been kept by the Selectmen securely locked in a vault of the Town Hall, have been removed to the Library and are now accessible to every one who desires to make use of them at the Library building.

A new charging system and method of accounting for the withdrawal and return of books has been installed, which the Trustees believe to be in accord with the best practice established in the large and progressive libraries of the State, and they hope will meet with general approval.

The following figures show something as to the extent to which books have been used during the last five years.

BOOKS DRAWN.

| | | | |
|------|------|------|------|
| 1908 | 5352 | 1911 | 5562 |
| 1909 | 6194 | 1912 | 7006 |
| 1910 | 5765 | 1913 | 8185 |

The increase since the new Library has been built is gratifying, and yet the use of the Library by the townspeople is by no means commensurate with the possible enjoyment and advantages that might be obtained if these could be brought home to those within whose reach they are.

Report of Sealer of Weights and Measures.

INVENTORY OF STANDARDS.

One large scale in cabinet.

One brass yard measure.

Weight—1, 2, 4, 5, 10, 20, 25, 50, Pounds.

Weights—1-16, $\frac{1}{8}$, $\frac{1}{4}$, $\frac{1}{2}$, 1, 2, 4, 8, Ounces.

Dry Measures—iron 1, 2, 4, 8, 16 Quarts.

Liquid Measures—iron $\frac{1}{2}$, 1 pint, 1, 2, 4 Quarts.

WORKING EQUIPMENT.

Sealers balance in case. 1

Avoirdupois weights 50 lbs. 2a.

Avoirdupois weights 1, 2, 4, 5, 10, 25 Pounds,

Avoirdupois weights 1-16, $\frac{7}{8}$, $\frac{1}{4}$, $\frac{1}{2}$, 1, 2, 4, 8, Ounces.

Dry Measures—wood 1, 2, 4, 8, 16, Quarts.

Liquid Measure—copper, minimum for milk, 1pt. 1qt.

Liquid Measure—copper 1-2, pint, 1, 2, 4 quarts.

Glass graduates 2.

Drill 1.

Vice 1.

Number of scales sealed, 46.

Number of scales adjusted, 2.

Number of scales condemned, 1.

Number of weights sealed, 146.

Number of weights adjusted, 21.

Number of Liquid measures sealed, 14.

Number of Yard measures sealed, 1.

W. C. SIMPSON.

Sealer of Weights and Measures.

Tree Warden's Report.

36 INDIA STREET, BOSTON, MASS.,

January 17th, 1914.

Your Tree Warden respectfully submits the following report:

I have expended on the Tree Warden Work, supplies and labor as follows:

| | |
|-----------------------|--------|
| R. W. Schnare, | 6 14 |
| H. W. Young & Co. | 17 00 |
| P. S. Lincoln, | 2 40 |
| Marlboro Grain Co. | 4 50 |
| Merrimac Chemical Co. | 27 61 |
| Southboro Print Shop, | 4 00 |
| G. F. McDonald, | 9 00 |
| F. Wright, | 1 50 |
| Marlboro Rubber Co. | 1 25 |
| W. H. Hill, | 2 24 |
| Labor (total) | 806 08 |
| Total expended, | 881 72 |

I have expended on the Gypsy and Brown Tail Moth work:

| | |
|---|-------|
| N. Y. N. H. & H. R. R. Co. (acct. sprayer.) | 7 20 |
| F. W. Rane, acct. sprayer, | 39 96 |
| Joseph Burnett Co. | 1 55 |
| A. C. Lamson, | 4 75 |
| Eagle Oil & Supply Co. | 9 00 |

| | |
|-----------------------|---------|
| H. W. Young & Co. | 6 56 |
| Geo. R. Hall & Co. | 70 |
| Marlboro Repository, | 2 30 |
| Southboro Print Shop, | 8 25 |
| Labor, (total), | 2481 17 |
| Total expended, | 2561 44 |

To offset these amounts there is the appropriation—

| | |
|-----------------------|------------------|
| Tree Warden, | 1500 00 |
| New spraying machine, | 500 00 |
| Moth tax, | 1070 48 |
| Private Work, | 108 15 |
| Received from State, | 59 15 |
| | <u>\$3237 78</u> |

Your tree warden has had considerable work in cutting down and removing decayed and dead trees from the highway. If the towns about us did as good work we should be gaining on the Brown Tails and Gypsies.

We have received the new spraying machine from the State, which has added greatly to the efficiency of our work.

I think there should be a special appropriation made this year for the tent catipillars; to cut down the wild cherries on the highways would remove one of their nesting places, but it needs the co-operation of all the fruit growers in town to exterminate them.

I would, therefore, ask for the Tree Warden \$200.00, special appropriation for the Tent Catipillars \$500 00, for the Gypsy and Brown Tail Moth work I would ask for \$1500 00 to be spent at the discretion of the tree warden.

Yours Respectfully,
HARRY BURNETT,
Tree Warden.

Selectmen's Report.

The Marlboro and Hudson Gas Company petitioned the Selectmen for a general location to lay their pipes in all streets in Southboro. Our Board granted their petition, with certain restrictions for the protection of the town's interests. This was done upon the advice of the Town Counsel. The Selectmen insisted that a suitable bond should be given to protect the town against any accidents that might occur. The Gas Company have refused so far to accept the Selectmen's conditions. Your Board realizes the great convenience of the use of gas for the inhabitants of the town, but at the same time they feel that they must insist upon the protection of the town against becoming liable for heavy damages in case of a serious accident.

The Town of Southboro's contract for electric lighting with the Marlboro Electric Co. expires this spring, and the Selectmen have already petitioned the Massachusetts Gas & Electric Commission asking for a reduction in the price of electric lights, not only for the Town, but also for the private consumers, feeling that the present prices we pay are exorbitant and the quality of the light poor. The Selectmen have joined in this petition with the City of Marlboro, and towns of Hudson, Northboro, Shrewsbury and Westboro, feeling that a united effort with our neighboring towns will be more effective with the State Commission.

A new law has been passed relative to jails, and this law makes the town lock-up at Cordaville useless. We have been notified by the State that it cannot be used.

The Board feel that some action must be taken relative to repairing our old lockup, or having a new one built. The Board have no recommendations to make in this matter, but have inserted an article in the warrant to be acted upon at the March Annual Meeting.

Last year a most determined effort was made in the Legislature to take corporation taxes away from the towns and cities and have the same retained by the state. Your Board retained counsel and used every effort to defeat this, and were again successful after a long contest lasting the entire session of the Legislature. It looks this year as if the situation would be more critical than ever. Your Selectmen will use every effort in their power to keep the corporation tax in Southboro.

The Selectmen wish to urge upon the voters of the town the necessity of economy. We have large fixed charges, and all new expenditures should be very carefully considered. The tax payers must realize that if we lose our corporation tax, our taxes would more than double.

Respectfully submitted,

FRANCIS D. NEWTON,

JOHN T. BURNETT,

PAUL S. LINCOLN,

Selectmen.

FORTIETH

Annual Report

OF THE

School Committee

OF THE

Town of Southborough

FOR THE

YEAR ENDING DECEMBER 31

1913

Report of the School Committee.

The report which follows shows an overdraft of nearly \$600, due mainly to an increase in the salaries paid teachers and the increased cost of janitor service. This calls for an increase in the next appropriation or some cut in expenditures.

The new driven well at Peter's High School proves to be a great success and furnishes an adequate supply of water of excellent quality. Prof. Prescott says in his report—" I have no hesitation in pronouncing the water at the present time as free from sewerage pollution and satisfactory for domestic or drinking purposes.

There is also a good well at the new school and it is no longer necessary to depend on the generosity of neighboring families for drinking water as in the past.

Report on New School Building.

THE Chairman of the Building Committee here presents his report on the completion of the work on the New School Building and grounds in the south part of the town.

With the money appropriated at the last annual meeting, the Committee have been able to grade the grounds and complete all necessary work in connection with the school building. While they have labored earnestly and to the best of their ability to have the work done in a thorough and satisfactory manner, they have been handicapped by engineers' estimates and by unjust and unreasonable criticism. They have, however, completed the work in grading with substantially the same amount of money submitted by Mr. Auguste Saucier, of South Framingham, in his original estimate.

This building, with its splendid location, its ideal surroundings and its thoroughly up-to-date equipment, the people of Southville and Cordaville who have the interests of the children at heart should greatly prize, and I feel that they will in future years realize that the Committee have brought to a successful termination a work that will stand as a monument to their efforts.

There is one point that I wish to impress very strongly on the voters of the town for their consideration. We have a room in the building for a branch of the Public Library, with stacks to hold two thousand (2,000) volumes, and it is otherwise well equipped. It must be borne in mind that the appropriation of one hundred dollars (\$100.) each year will be inadequate. To have a competent librarian, to have the library open at least two evenings a week, to transport books from the main library, besides to meet other necessary expenses, such as heating, lighting, etc., at least two hundred and fifty dollars (\$250.) must be appropriated.

In conclusion, I will state that, in spite of all adverse criticism, the Town has received good value for the money expended, and the building of this new school house was a wise move and will never be regretted.

Respectfully submitted,

DANIEL F. HARRINGTON,

Chairman Bldg. Com.

COMPLETION SOUTH UNION SCHOOL.

Committee.

The undersigned, members of the Building Committee, desire to express their appreciation of the tireless efforts of their Chairman in bringing the work on the school and grounds to a successful completion.

SETH H. HOWES,
F. A. FLICHTNER,
AUGUSTUS E. WRIGHT.

Report of Superintendent of Schools.

To the School Committee of the Town of Southborough.

GENTLEMEN: This is the fourth annual school report which I have had the honor to submit for your consideration and the twenty-fourth in the series of such reports.

The changes in the teaching force which have occurred during the past year may be learned by reading Tables 10 and 11.

A Teacher for the "Special Class" proposed.

A careful reading of Table 6 will disclose the fact that Room 3 in the High School building is overcrowded, and that under the circumstances there prevailing it is impossible for the teacher to accomplish for the pupils in that room what she ought to accomplish. There are practically fifty pupils in that room in charge of one teacher. More than twenty per cent. of the pupils in that room are failing to meet the teacher's minimum requirements as to the work to be accomplished. A further study of the table will show that the percentage of failing pupils in that room is considerably beyond that in any other room in town.

It is not because a larger percentage of indifferent and slow pupils have happened to come together in that one room, (every room may be sure to have a small percentage of these), but it is because no teacher, however capable, has the capacity mentally or physically to meet in a satisfactory manner the needs of fifty children, especially when they are distributed in two grades.

As a solution, at least for the time being, I would suggest, as I suggested in the report of last year, that an additional teacher be engaged to assume the responsibility for two or three recitations per day now in the program of the teacher in Room III, and to devote the remainder of her time each day to the instruction of small groups of slow pupils selected from the several elementary rooms in the building.

Such a provision as this would not only give the regular teacher in Room III more time and save her strength for the adequate management of the remaining recitations of her program, but would also be a benefit to every elementary room in the building, tending to reduce the number of failing pupils. We have a room which is entirely suitable and convenient for the additional work anticipated in the provision of a teacher for the "special class."

RE-ORGANIZATION OF HIGH SCHOOL PROGRAM.

The re-organization of the high school program

of studies to meet the changing requirements of the State Board of Education, and to put the high school course of study into line with changing conditions as to college entrance requirements was accomplished during the past year with a minimum of disturbance to the work of individual pupils. The new course of study requires the pupil's concentration upon fewer subjects, four full subjects in any one year unless his record for the previous year shows a rank of 85 per cent. or more in each subject pursued during that year, and also provides for the individual needs of each pupil as he advances from year to year.

COLLEGE ENTRANCE REQUIREMENTS.

A reading of Table 9 will answer the question often asked, "Does the high school prepare for college?" There are a dozen colleges in the State of Massachusetts alone with varying requirements for admission, not to mention scores of them in New England and vicinity, so this question in the form in which it is usually asked is rather a difficult one to answer. The table above referred to compares the entrance requirements of seven typical Massachusetts colleges with the program of studies now in operation in Peter's High School.

For convenience in reading the table I will say a "unit" is a full year's work in a subject which has four or five recitations of forty or forty-five minutes

each throughout the high school year. I should say any one interested in the articulation of Peter's High School with the colleges of Massachusetts may easily determine for himself the extent to which this high school is able to meet college entrance requirements. It must be understood, however, that the character of the individual pupil's work and effort during his high school course, as well as his own capacity for undertaking the work offered in the colleges, will condition the ability of each individual acceptably to meet these requirements when the time comes for him to offer himself as a candidate for admission to college.

THE DEBATE.

To stimulate the practice of English composition both oral and written, a triangular debate among the high schools of this superintendency union will be conducted this winter, one debate being held in each town as follows; one at Northboro, February 18; one at Southboro, February 25; and one at Shrewsbury, Mar. 4. A committee of judges, one representative of each of the three Worcester colleges, will be present at each debate and, at the conclusion of the competition, award as a prize to the winning high school a silver cup valued at \$25.00. After the award the prize will be retained for the period of one year by the winning high school, when it will again be competed for in the same manner as

in the first instance. Thus each year these three high schools will meet in friendly rivalry, contesting, under practically identical conditions as to the size of schools and character of training, which can show the highest excellence in literary endeavor.

It is hoped that this competition will stimulate not only individual endeavor along the lines indicated, but that it will also develop a spirit of school loyalty among all the pupils of the high school.

THE NEW CHILD LABOR LAW.

The chief provisions of this law as it relates to children between 14 and 16 years of age are as follows:—

Present to the Superintendent of schools,

1. An attested transcript of birth certificate.
(To be obtained from the Town or City Clerk of the Town or City of birth).

2. A "promise to employ."
(To be obtained from the child's intending employer),

3. "A physician's certificate of health."

(To be obtained from any physician).

4. A "school record" showing school attendance of at least 130 days following the child's 13th birthday, and completion of grade 4.

(To be obtained from the teacher in charge of the school which the child last attended.)

5. Take the literary test in the presence of the Superintendent of Schools.

(Make an appointment with the Superintendent of Schools.)

These provisions are arranged in the order in which they should be complied with.

The chief provisions of the law as it relates to children between the ages of 16 and 21 are as follows;

1. Present to the Superintendent of Schools an attested transcript of birth certificate.

(To be obtained from the Town or City Clerk of the Town or City of birth).

2. Take the literary test in the presence of the Superintendent of Schools.

(Make an appointment with the Superintendent).

The reports of the Principal of the High School and of the Medical Inspector are herewith presented, and deserve careful consideration.

In conclusion I wish to commend the teachers for the spirit of hearty co-operation which they have at all times evinced, and to express my appreciation of the good work done by Mrs. A. W. Hosmer in connection with the Home Enterprises and the exhibit. Worthy also of every commendation is the janitor service in every one of the schools in the town.

Respectfully submitted,

FREDERICK B. VAN ORNUM.

Superintendent of Schools.

Northborough, Mass., Jan. 15, 1914.

STATISTICS.

| Scalp | 2 | | | | | | | |
| Atrophy of Leg | | 1 | | | | | | |

Total number of children examined, 316.

Total number of visits by nurse to parents or guardians, 55.

Respectfully,

J. LOWELL BACON.

TOWN OF SOUTHBOROUGH.

Mr. F. B. Van Ornum, Supt. Schools,

DEAR SIR: The foregoing is a tabulated statement of Medical Inspection of Southboro Schools.

In all the Grades—especially the lower—there are a number of children who have never been vaccinated.

There were 78 cases of Adenoids, 94 Tonsillitis, 135 Dental Caries. Unless the cases of Dental Caries were especially marked no visit was made; 4 were treated as result of visit.

Of 3 cases of Defective Hearing 1 was treated. There were 20 cases of Defective Eyesight and 3 were treated, 23 cases Flat-feet, 7 treated.

Almost all the parents whom I visited (except those who said they could not afford it) promised to do what was necessary, but as the re-inspection was made just before the Christmas vacation and some had planned to have their children attended to during that time, the full results do not show in the accompanying statement.

Respectfully,

ANNA HUNT.

Jan. 10th 1914.

Report of Principal of Peters' High School.

THE REPORT

TO THE MEMBERS OF THE SCHOOL COMMITTEE OF
SOUTHBORO, MASS :

GENTLEMEN—The report of the principal of Peters' High School for the year 1913 follows :

Shortly after the beginning of the fiscal year, your high school was inspected by Mr. Clarence D. Kingsley, Agent of the State Board of Education, and Deputy Commissioner of Education, William Orr. The courses of study, our general plan of organization, and the attitude of the pupils so favorably impressed the state officials, that the school was placed on the so called "Approved List", which gives the principal the privilege of entering local high school graduates in the State Normal Schools by certificate.

With the admirable facilities which the school places at the disposal of the pupils, it should be no difficult task for them to maintain a standard of scholarship which will continue to keep the school on this list; in fact they should feel it their duty to do so.

A class of ten received diplomas at the graduation exercises which took place in town hall on the

evening of June 18th. At present, three pupils are doing good work in Normal School, two are engaged as stenographers, two are attending the Conservatory of Music, one is employed as a clerk, one is learning a trade, and one is working at home.

With the opening of school in September came an unusually large entering class due to the abolition of the 9th grade and the introduction of a five year course in the high school.

The membership for the current year by courses and classes was as follows :

| | College | Technical | Commercial | Gen'l |
|------------|---------|-----------|------------|-------|
| Seniors | 4 | 0 | 4 | 1 |
| Juniors | 3 | 0 | 1 | 0 |
| Sophomores | 4 | 5 | 2 | 1 |
| Freshmen | 13 | 3 | 10 | 5 |

HOME STUDY—INCREASED EFFICIENCY.

The standard of work in the high school during the past year has been maintained at approximately the same level as in the preceding year. There is evidence of slightly increased efficiency on the part of the pupil, but there still remains ample opportunity for improvement. The great stumbling block seems to be a lack of either the proper amount or the proper kind of home study. This is especially true in the Freshman class. The consideration of

this problem leads me to believe that its solution lies in directed class room study during school hours under the supervision of a teacher. I am heartily in favor of eliminating home study so far as possible, and of substituting in its place intelligently directed class room study. A few of the reasons which might be urged in favor of my position are as follows :

1. Home surroundings may not be conducive to the proper kind of home study.

2. Often times a pupil is hampered by not knowing how to study.

3. A pupil may become discouraged in working out the home assignment of the day by being unable to understand the principle involved in his work and abandon the task as hopeless, when a single suggestion or explanation from a teacher might enable him to complete the work with ease.

4. Home study may be rendered ineffective on account of unnecessary interruptions and discursive influences such as conversations going on near the pupil or cessation of study to perform some small household task. Such influences inevitably lead to make-shift preparation in assignments, which eventually become habitual.

Such a plan would obviously necessitate the lengthening of the school day to allow for the proposed class room study. However, this will not detract from the freedom of the pupil but much rather

tend to leave him entirely free outside of school hours to devote himself to whatever tasks may be set for him or whatever necessary recreation the pupil may wish to enjoy.

It is logical to suppose that a pupil does or does not do his work faithfully. In case he does, the proposed system will give him a definite time in which to accomplish school assignments for the following day and to leave him almost absolutely free outside of school hours. If he does not do his home work faithfully—and this is the pupil whom it is necessary for us to reach—he is assigned a certain definite time during which he is obliged to study intelligently under expert supervision, with the result that where nothing was being accomplished previously, it is inevitable that some beneficial effects and a certain amount of progress must follow.

If such a plan were adopted in the high school it would mean the delaying of the departure of the barge for at least an hour. Should such a change be feasible, I feel that this suggestion concerning the elimination of home study is a matter deserving of careful consideration.

CHANGES IN THE CURRICULUM.

A number of important changes were made in the course of studies, to conform with the recommendations of the State Board of Education.

Social Science and General Science were introduced in the Freshman Class at the beginning of the Fall term, and Economics was made an elective subject for Seniors and Juniors. There has been a 20 per cent increase in the amount of time devoted to English.

SCHOOL ACTIVITIES.

Dancing parties, dramatics, basket-ball and the publishing of the school paper constituted the chief activities of the school extraneous to the class room. Several dancing parties were held and two plays were presented, one by the entire school and one by members of the Senior class during the course of the year. The plays were well received.

Last seasons basket-ball team was very successful while the team of this season has been somewhat handicapped by the graduation of a number of last year's experienced players. The girls have also organized a team.

During the current year four issues of the school paper were published. The high order of the work has merited the recognition of the State Board of Education to such an extent that the Board requested copies of the paper to distribute to smaller high schools throughout the state.

ATTENDANCE.

It has been very encouraging to note the decrease in the number of absences during the first

four months of the present school year, as compared with that of previous years covering the same period of time. The following table will serve to illustrate:

PERCENTAGE OF ATTENDANCE.

| | Sept. | Oct, | Nov. | Dec. |
|------|-------|-------|-------|-------|
| 1909 | 96 | 96.3 | 96.7 | 93.4 |
| 1910 | 94.4 | 94 | 93 | 90.2 |
| 1911 | 99.0 | 94.48 | 94.66 | 90.31 |
| 1912 | 98 | 96 | 94 | 98 |
| 1913 | 99.1 | 98 | 98.9 | 98 |

I believe that the excellent work done by our attendance officer, Mr. Carpenter, has tended to reduce unnecessary absence to a minimum.

In closing this report, I wish to take the opportunity to express my gratitude to Supt. of Schools, Mr. Van Ornum, the members of the high school faculty and the school committee for their co-operating during the year, also to Mr. Lowry, our janitor, for the excellent service which he rendered at all times.

Respectfully submitted,

H. J. McSHERRY

Principal.

ARTICLES OF THE TOWN WARRANT

MARCH 1, 1915.

Article 1—To choose a Moderator to preside in said meeting.

Article 2—To choose all necessary Town Officers and Committees.

The votes for Town Clerk, Treasurer, Collector, Selectman, Assessor, Overseer of the Poor, School Committee, Town House Committee, Cemetery Commissioner, Trustees of the Fay Library, Highway Surveyor, Tree Warden, Constables, Board of Health, Advisory Committee and Tree Warden to be on one ballot.

The Polls will be open at seven o'clock in the forenoon and may be closed at three-thirty of the clock in the afternoon of said day.

The following officers to be chosen by ballot: Town Clerk, Treasurer, Collector, one Selectman for three years, one member of the School Committee for three years, one Overseer of the Poor for three years, Highway Surveyor, three members of the Town House Committee, one Cemetery Commissioner for three years, one member of the Board of Health for three years, Tree Warden, Constables, two members of the Advisory Committee for three years, two Trustees of the Fay Library.

Article 3—To vote by ballot, "Yes," or "No," on granting licence for the Sale of Intoxicating Liquor.

Article 4—To raise such sums of money as may be necessary for the legitimate use of the Town and make appropriations of the same.

Article 5—To vote by ballot, "Yes, or "No," on the question. Shall the Town accept the provisions of Chapter 807 of the Acts of 1913 and the amendments thereto, being an act to provide for compensating laborers, workmen and mechanics for injuries sustained in public employment, and to exempt from legal liability Counties and municipal corporations which pay such compensation.

Article 6—To hear the reports of Town Officers and Committees and do or act thereon.

Article 7—To determine the manner of collecting the taxes for the ensuing year, and do or act thereon.

Article 8—To see if the Town will authorize its collector to use all means for collecting the taxes which a Town Treasurer may use when appointed collector.

Article 9—To see what disposition the Town will make of the Dog money, or do or act thereon.

Article 10—To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 11—To see what action the Town will take to suppress the illegal sale of intoxicating liquor, or do or act thereon.

Article 12—To see if the Town will appropriate a sum of money for street lighting, and pass any vote respecting lighting of any streets or way.

Article 13—To see if the Town will appropriate the sum of one hundred dollars for defraying the expenses of Memorial day, and decorating and repair of soldiers and sailors graves, or do or act thereon.

Article 14—To see if the Town will appropriate the sum of fifty dollars, to be expended by Post 44, G. A. R. in accordance with Section 15 of Chapter 25 of the Revised Laws, or do or act thereon.

Article 15—To see if the Town will appropriate any sum of money unexpended from the special appropriations for change of the side walk on Oak Hill Road, and appropriate any additional sum necessary to complete said change.

Article 16—To see if the Town will appropriate a sum of money for the care and maintenance of the Swimming Pool, or do or act thereon.

Article 17—To see if the Town will appropriate a sum of money for Play Grounds, or do or act thereon.

Article 18—To see what action the Town will take

regarding one or more Lock-ups, appropriate money for the same, or act thereon.

Article 19—To see if the Town will authorize the Selectmen to appoint a committee to care for the Village Building in Fayville, or do or act thereon.

Article 20—To see if the Town will take any action regarding Planting Shade Trees, and appropriate a sum of money for that purpose, in order that the town may enter the Shade Tree Planting contest, conducted by the Massachusetts Forestry Association, or do or act thereon.

Article 21—To see if the Town will appropriate the sum of two hundred and fifty dollars for repairing the side walks in Southville, leading from the Railroad Station of the Boston and Albany R. R. to Southville Road, thence Westerly on Southville Road as far as side walk now extends, and for repairing side walk from Southville Post Office to Lindsey's Hall, or do or act thereon.

Articles 22—To see if the Town will authorize the renting of the Town Hall for Basket Ball playing, or do or act thereon.

Article 23—To see if the Town will instruct the Selectmen to pay the original fire bills, that have been presented by the Fire Wardens of the South part of the Town, or do or act regarding pay for Firemens services.

Article 24—To see if the Town will appropriate the sum of fifty dollars for the payment of the services of a Nurse, in the work of School inspection, or do or act thereon.

Article 25—To see if the Town will appropriate a sum of money for the repair of Gilmore Road, or do or act thereon.

Article 26—To see if the Town will appropriate any sum of money for repair and erection of Sign Boards, on the Highways, or do or act thereon.

Article 27—To see what action the Town will take regarding claim of John A. Flanders for damage to his property by drainage of Parkerville Road.

Article 28—To see if the Town will appropriate a sum of money for the establishment and maintainance of a branch of the Public Library in the South Union school Building, or do or act thereon.

Article 29—To see if the Town will make provisions for the proper drainage of the surface water near the house of John Sealey, or do or act thereon.

Article 30—To see if the Town will take any action in regard to the side walk on Newton Street, or do or act thereon.

Article 31—To see if the Town will authorize the extension of Walker Street, as layed out, and appropriate a sum of money for the same, or do or act thereon.

Article 32—To see if the Town will lay out, or repair the old Road leading from Oak Hill Road, Southerly to the house of Harriet E. Walkup, and appropriate a sum of money therefor, or do or act thereon.

Article 33—To see if the Town will authorize the Selectmen to sell the old Stone Crusher, and appropriate a sum of money for the purchase of a new Portable Stone Crusher, or do or act thereon.

Article 34—To see if the Town will vote to discontinue that part of Cross Street leading easterly to Framingham Road, or do or act thereon.

Article 35—To see if the Town will choose a Committee to go before the State Highway Commissioner or the County Commissioners, and ask an amount of money to rebuild Marlborough Road from the Marlborough, Town line to Main Street, or do or act thereon.

Article 36—To see if the Town will authorize the Selectmen to have street lights on any of the Streets or Ways. Viz: School Street, Cordaville Road, Middle Road, Main Street, Jericho Hill Road, or do or act thereon.

Article 37—To see if the Town will authorize the Town Accountant to close 1914 accounts showing overdrafts or balances, and to transfer unexpended balance of \$36.52 of Library Dog tax and \$23.84 fines collected to the Fay Library Trust income account.

Town Accountant

Town of Southborough

MASSACHUSETTS.

Annual Report

FOR THE YEAR ENDING DECEMBER 31

1914

Report of Town Accountant.

To the Honorable Board of Selectmen.

GENTLEMEN: I herewith submit the following report for the Town Accountant's department for the year ending December 31st, 1914. I have checked up the cash accounts of the Treasurer and have found the proper balances as entered on his books. The difference between my report of Taxes collected and that of the Collector is due to the fact that my books were closed before notice was received from the Collector for Interest added or discount allowed during the year. This matter will be adjusted promptly with the collector's department.

Respectfully submitted,

CHAS. E. BAGLEY.

Receipts.

Annual Town Meeting Mar. 2, 1914.

Article 1—Chose Seth H. Howes Moderator, by ballot.

Article 2—See Town Officers.

Article 3—For License to sell intoxicating liquor.

Yes, 83.

No, 152

Blanks, 20

Article 4—Revocation; of provision of law providing for the election of a Highway Surveyor:

Yes, 76

No, 90

Blanks, 85

Article 5—Voted, by a rising vote, forty eight, in favor none against to raise the sum of (\$41,755 00) forty-one thousand seven hundred and fifty-five dollars, and that the same be assessed upon the estate within the town, to pay town debts and charges, and that the same be appropriated as follows:

(See Appropriations 1914)

Article 6—The reports of the various Town Officers were acted upon and accepted.

The report of the Committee on South Union School, pages 102 to 105, inclusive, were acted upon and the Committee discharged.

The Auditor's Report was accepted.

The Auditor's as a whole, was acted upon and voted accepted as printed.

Article 7—Voted, that all poll taxes in Southborough, the present year, be made payable on demand, and that all single poll taxes not paid sixty days after having been put into the hands of the Collector, shall be put into the hands of a constable for collection.

All other taxes to be paid before the first Monday in December, 1914; if not then paid, interest at the rate of six per cent. per annum shall be added until paid; if not paid by the first Monday in January, 1915, the Collector is instructed to collect the same according to law; Provided that there shall be discounted from any tax bill other than poll taxes, paid before December first and after July thirty-first, an amount equal to six per cent. per annum for each whole month it is so paid before December first.

Article 8—Voted, to authorize the Collector to use all means for collecting the taxes which a Town Treasurer may use when appointed Collector.

Article 9—Voted, to appropriate the Dog money, one-half to the Schools, one-half to the Public Library.

Article 10—Voted to pass the article, (See By-laws section 2 of Article IV. Selectmen.)

Article 11—Voted, that the Town Treasurer, with the approval of the Selectmen, be, and hereby is, authorized to borrow money from time to time, in anticipation of the revenue of the financial year beginning January 1, 1914, (to an amount not exceeding in the aggregate, \$25000.00), and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

By a rising vote, 71 in favor, none against.

Article 12—Voted, to leave in the hands of the Selectmen.

Article 13—Voted. Under appropriations.

Article 14—Voted. Under appropriations.

Article 15—Voted, to pass the article, (See appropriations)

Article 16—Voted, to leave in the hands of the Selectmen, with power to act after new lighting contract is awarded.

Article 17—Voted, to pass the article. (See appropriations.)

Article 18—Voted, to pass the article. (See By-laws Article VI. Sec. 1.)

Article 19—Voted, to refer to the Advisory Committee, they to report at a special Town Meeting, and to reappropriate the unexpended balance from last year of \$1120 41 less any unpaid bills that have been incurred.

Article 20—Voted, that the salary of the Highway Surveyor be \$5.00 per day for each day he actually works till July 1, and an annual salary of \$150.00 for general supervision.

Voted, that the salary of the Town Accountant be \$200 00 per year.

Voted, that the salary of the Board of Health be \$25.00 per year for each member.

Article 21—Voted, to appropriate \$100.00 to be expended by the Tree Warden for removing wild cherry and wild apple trees, from the public streets and ways.

Article 22—Voted, to leave in the hands of the Selectmen with power to accept, if the town has the legal right to do so.

Article 23—Voted, that Town accept and adopt the report of the Selectmen upon the lay-out and widening of the Northerly terminus of High Street, and appropriate \$300.00 therefor, (under direction of Highway surveyor)

Article 24—Voted, to pass the article.

Article 25—Voted, to pass the article. (See appropriation)

Article 26 Voted, to refer to the Advisory Committee, to report at some future Town Meeting.

Article 27—Voted, to authorize the School Committee to erect a fire escape on the High School Building and appropriate \$400 00 therefor.

Article 28—Voted, to refer to the Advisory Committee and the School Committee.

Article 29—Voted, that the Town grant the free use of the public halls one night in each year hereafter, to the several Fire Companies, provided that the South Union School Hall shall not be used later than twelve o'clock at night, and the actual expense be taken from the Selectmen's Contingent Account.

Article 30—Voted, to pass the article.

Article 31—Voted, to refer to the Advisory Committee, to be reported upon at some future Town Meeting.

Article 32—Voted, to refer to the Advisory Committee

Article 33—Voted, that the Highway Surveyor be instructed to rebuild the sidewalk on Oak Hill from near residence of Mr. Winslow, southerly, as far as the sidewalk now extends and place on inside of trees on East side of Street; money to be taken from regular Highway Appropriation.

Article 34—Voted, to appropriate the sum of \$150 00 for the care and maintenance of the public buildings in Fayville, and that a Committee of three be appointed by the Chair, to carry out the purpose of this vote.

Chair appointed SAMUEL F. DRAPER, J. H. McCLOSKEY, JOSIAH TRUE (notified by Chair.)

Article 35—Voted, to authorize the Selectmen to have 500 copies of the New By-Laws printed and distributed, and to appropriate \$100 00 therefor.

SPECIAL TOWN MEETING, MAY 27, 1914.

Article 1.—Seth H. Howes was elected as Moderator.

Article 2—To see if the Town will accept as gift to the Town, by the Ladies' Charitable Society, the clock in the Lower Town Hall and the crockery owned by said society, and other articles, with the provisions embodied in said gift, or do or act thereon.

Voted, to accept the gift of the clock, crockery and other articles from the Ladies' Charitable Society, and to agree that the clock shall be kept in the Lower Town Hall, and that all the property shall be kept and cared for as town property.

Voted, to extend a vote of thanks to the Ladies' Charitable Society for the gift.

Article 3—To see if the Town will authorize the Selectmen to take, by purchase or otherwise, additional land for the Fire Station in the Village of Fayville, or do or act thereon.

Voted, that the Selectmen be authorized to acquire by purchase, or by right of eminent domain, the land owned by Angelo Manini, east of the village hall in Fayville, for fire-house or other purposes: and that the price to be paid for same be determined by three disinterested parties.

Voted, that the Selectmen be authorized to pay for the land from funds in the hands of the Town Treasurer.

Article 4—To hear the report of the committee appointed by the Town to investigate necessary repairs or changes in or on the Town House, or do or act thereon.

Voted, to pass the article.

Article 5—To see what action the Town will take regarding repairs on Main St. or do or act thereon.

Voted, that the sum now unexpended, \$1,032.56 be expended under the direction of the Highway Surveyor in repairing Main St., and that he be recommended to follow the recommendations of the State Highway Commission as to methods of making the repairs.

Article 6—To hear any report of the Advisory Committee and do or act thereon.

Voted, to accept the report of the Advisory Committee.

Voted, to authorize the Selectmen to sell or otherwise dispose of the lockup in Cordaville.

SPECIAL TOWN MEETING, NOVEMBER 5, 1914.

Article 1—Chose John T. Burnett, by ballot for Moderator.

Article 2—To see if the Town will vote to appropriate an additional sum of money for the use of the Highway Surveyor to pay snow bills and for repairing the highways, or pass any votes respecting the same.

Voted, that \$6.50 be appropriated to cover over drafts expended for the layout of High Street.

Vote, that \$15.75 be appropriated to cover overdraft expended for the Main Street.

Voted, that \$500.00 be appropriated for the streets in general, with the understanding that \$50.00 of this amount be used to fix the gutter near the house of J. E. Welch.

Voted, that \$500.00 be appropriated to cover overdraft for the Highway Surveyor and for the removal of ice and snow during the balance of the year 1914.

Article 3—To see if the Town will vote to appropriate an additional sum of money to pay for Fire Escapes on the Center School Building or pass any vote respecting the same.

Voted, that \$209.22 be appropriated for the completion of the fire escapes on the Center School building.

Article 4—To see if the Town will appropriate a sum of money to pay Angelo Mannini for land seized in Fayville for the Fire Engine House or do or act thereon.

Voted, that a sum not exceeding \$500.00 be appropriated to pay Angelo Mannini for land seized in Fayville.

Article 5—To see if the Town will appropriate a further sum of money to pay services of Firemen or do or act thereon.

Voted, that \$700.00 be appropriated to cover overdrafts for firemens services, and the possible expense during the balance of the year.

Article 6—To see if the Town will vote to instruct the Highway Surveyor further regarding change in the sidewalk on Oak Hill road in Fayville, or pass any vote respecting the same.

Voted, that the change in the sidewalk on Oak Hill road in Fayville. be left in the hands of the Selectmen.

See Article 33 March Meeting 1914.

Article 7—To see if the Town will appropriate a sum of money necessary to make any change in the sidewalk on Oak Hill road or do or act thereon.

Voted, that \$100.00 be appropriated for the change in the sidewalk on Oak Hill road in Fayville under the direction of the Board of Selectmen.

Article 8—To see if the Town will appropriate sums of money to meet additional or necessary expenditures made by the Tree Warden for removing Wild Cherry

Trees, and by the Selectmen for Firemen's Services and for Fire Department supplies, or pass any vote respecting the same.

Voted, that \$4.25 be appropriated to cover overdrafts by the Tree Warden for the removal of Wild Cherry Trees

Voted, that \$50.00 be appropriated to cover overdraft for supplies and further expenses of the Fire Department.

Voted, that \$100.00 be appropriated for further bills in connection with the Fayville Public Hall and Engine House.

The Meeting further voted: That all sums of money appropriated at this meeting be taken from money in the hands of the Town Treasurer \$2,685.72.

By a rising vote, 45 in favor, none against.

Respectfully submitted,

CHARLES H. NEWTON,

Town Clerk.

Selectmen's Report.

The matter of lower rates for electricity in the Town has not been settled, owing to the death of Chairman of the Board of Gas and Electric Light Commission, before whom the hearings have been conducted. The Selectmen have attended numerous hearings and given evidence in regard to the service and rates in the Town, and there is every reason to think that our rates will be materially lower as soon as they can be passed upon by the new Commission.

We have also filed a petition in regard to supplying the Town with gas, and since the Selectmen and the Gas Co. could not agree as to the size of the indemnity bond, this matter has been left to the decision of the Commission, also.

In order to safeguard the records of the Town from injury or destruction, the Selectmen have had all the wooden shelves and receptacles removed from the vaults, and steel shelves and cases put in instead, at the same time classifying and systematizing in a more scientific manner the records filed there.

Your Board by personal work and through retained counsel, again helped to defeat the attempt made in the Legislature to take corporation taxes away from the Towns and Cities. The situation last year was rendered particularly critical by the force of the recommendation made by the Governor in his message that these taxes be taken from the Towns. The matter will probably come up again this year, and your Selectmen, in the interests

of the Town, will do their utmost to keep the corporation taxes in Southboro.

The organization and effectiveness of the Fire Companies in the Town have not been wholly satisfactory to your Selectmen. Though several visits and inspections of the different Companies have been made, the apparatus was not always kept in serviceable condition, and with the exception of one Company, the work at the fires has not been as organized, business-like and effective as it might. Moreover, the Selectmen have felt a lack of co-operation on the part of the members of the Companies in looking after the interest of the Town. There has been considerable indifference and carelessness in regard to the number of men put down on the list to be compensated for their services, and also in regard to the amount of time employed. The Selectmen will require more accuracy and efficiency in these matters in the future, and may, if necessary, reorganize the Companies on a new basis. The Board recommends that the Town reduce the compensation to firemen from forty cents to thirty cents per hour, which is more in accord with the rates paid by surrounding Towns.

In regard to changing the location of the sidewalk on Oak Hill road, which the Selectmen were authorized to do at the Special Town Meeting held in November, the street has been surveyed and proper bounds established, but owing to the frozen condition of the ground, it has not been possible to complete the work of changing the sidewalk.

Respectfully submitted,

FRANCIS D. NEWTON,
RAYMOND H. OVESON,
LYMAN FOLLENSBY.

Southboro, Dec. 31, 1914

Selectmen.

Report of the Town Board of Health for the Year 1914.

The duties of the Board of Health have been so increased by the Legislature that it is necessary for the Board to ask for a suitable appropriation for the ensuing year. Hitherto the Board has had no appropriation and has been obliged to spend but a small amount of money.

Under Chapter 744 of the Acts of 1914, it has been made unlawful for any producer of milk or dealer in milk to sell or deliver for sale in any town any milk produced or dealt in by him without first obtaining from the Board of Health of the town, a permit authorizing such sale or delivery. Boards of Health are authorized to issue such permits after an inspection of the place in which and the circumstances under which the milk is produced, and for this purpose may have an agent to make the inspection for them. This law, therefor, practically requires the Board of Health to annually, or perhaps oftener, inspect the premises of every person who produces milk for sale.

Upon the local Board of Health has also been imposed by the Legislature, the duty of providing and paying for the care of patients suffering from tuberculosis who are committed to any of the State Sanitoriums. At the present time one or more patients from this town are in such State Sanitoriums and bills have been presented for their care, which have been turned over to the Board of Health.

For investigations of water supply and drainage, fumigations, posting for infectious and contagious diseases, printing, expenses of culture tubes, anti-toxin tests, etc., the Board has been obliged to make expendi-

tures the past year, which the Selectmen have recognized and paid.

It is immaterial to the Board whether an appropriation be made to be expended directly by them or whether the Selectmen be given a fund from which payments of this kind can be made upon the approval of the Board of Health. On the whole, the Board recommends the latter course and suggests that an appropriation of three hundred dollars (\$300) be made to be paid out by the Selectmen upon the approval of the Board of Health.

During the last year the Board has received a number of complaints with reference to polluted water supply and improperly protected drainage, which have received the attention of the Board, and except in one aggravated instance, have been cheerfully remedied.

In the instance last above mentioned the property has been used for several Italian tenements where there have been a large number of children. The water supply was, at the suggestion of the Town Board of Health, examined by the agent of the State Board of Health and condemned. Sewage was permitted by the owner to flow over the surface of the ground in a neighborhood where dwelling houses were in close proximity, much to the annoyance of the neighbors. The Board has endeavored to deal patiently and temperately with an owner who appeared to be averse to remedying obnoxious conditions and inclined to be abusive and annoying to his neighbors as well as to the Board of Health wherever he saw an opportunity, and it may be that the town will have to consider taking steps to suppress such annoyance if persisted in.

CHAS. F. CHOATE, Jr.,

J. LOWELL BACON,

R. ALBRO NEWTON.

Tree Warden's Report.

36 INDIA STREET, BOSTON, MASS.,

January 13, 1915.

Your tree warden respectfully submits the following report:

We have removed during the past year, sixty-seven thousand four hundred and sixteen (67,416) gypsy moth egg clusters.

We have, however, a new pest with us in the shape of the Chestnut Tree Blight. It does not affect all the trees, although it is in all parts of the Town.

The work does not seem to diminish in any degree, and I would ask for Two Thousand (\$2,000) Dollars for the Gypsy and Brown Tail, and for the Tree Warden Work.

I am

Yours respectfully,

HARRY BURNETT,

Tree Warden.

Cattle Inspector.

In the general inspection of the cattle in the Town of Southboro, the past year, I visited seventy-three stables and inspected 1214 head of cattle, fifty-six swine and three goats.

Two cows were condemned and killed; the disease being tuberculosis.

The Foot and Mouth disease caused much anxiety in the town, but the farmer's took the stand with your Inspector; therefore we had no trouble in keeping out the disease.

There were five dogs affected with the rabies; three were killed and two died.

Respectfully submitted,

SILAS G. ALLEN,

Inspector of Animals.

Report of the Trustees of Fay Library.

The Trustees take pleasure in reporting a year of progress toward the realization of the ideal of a more useful Library more widely used. The Librarian's report, showing a slight increase in circulation over that of last year, is encouraging but the figures are still far from what they ought to be, far from what we feel they would be if the people of the town fully realized how great a fund of enjoyment and instruction lies ready at their hands. In his autobiography, Mr. Francis B. Fay, the founder of the Library, writes: "I was fond of reading but had no books. A Mr. Surrage, of Hopkinton, who had been many years a sailor, had a small library of such books as sailors like and kindly offered to lend them to me. I used to go four miles to get a book, read it, return it, and get another."

To-day, with our main Library at Southboro, a branch at Fayville and with deliveries in Southville and Cordaville it is comparatively easy for every one in town to secure the books they wish.

During the year, over five hundred new books have been added. A classified list of these will be found appended to this report. Especial attention is called to the addition of books of permanent value in the departments of biography, history and travel.

It is with regret that we record the resignation of Mr. Charles E. Bagley from the Board and we wish to express here our appreciation of his deep interest and zealous co-operation in all that forwarded the usefulness of the Library.

A new branch of the Library has been opened in the

Village Hall in Fayville and placed in charge of Miss Gertrude Wadsworth. Miss Mildred Wadsworth resigned her position as Assistant Librarian to take an extended course in Library work at Simmons College and she has been succeeded by Miss Sadie Stivers.

The charging system installed in 1913 has fully proved its worth and its convenience both for the Librarians and the users of the Library.

We wish to record our grateful appreciation of Mr. George H. Burnett's gift of a bronze statuette of Daniel Webster now placed in the reading room and of Mr. Harry Burnett's gift of white pine trees planted on the northern boundary of the Library property.

Respectfully submitted,

ROBERT F. CHENEY, Chairman,
MRS. ALBRO W. NEWTON,
CHARLES L. FAIRBANKS,
PAUL S. LINCOLN,
C. F. CHOATE, JR.

SETH H. HOWES,
FREDERICK A. FLICHTNER,
SAMUEL CLARK,

Committee.

Report of Superintendent of Schools.

To the School Committee of the Town of Southborough.

GENTLEMEN: This is my fifth annual school report and it is the twenty-fifth in the series of such reports.

There have been very few changes in the personnel of the teaching force or in the organization of the schools of Southborough during the past year. Such changes in the personnel of the teaching force as have occurred are shown in Tables 10-11. Doubtless the increases which have been made in the teachers' salaries in the past two or three years have helped considerably to secure this continuity of service which the schools have been recently enjoying and profiting by. It is, however, too much to expect that there will not be from time to time some changes in the personnel of our teaching force. Occasionally a teacher will be offered a salary so far beyond what this town can reasonably be expected to pay that he or she will only be protecting his or her own interests in accepting the higher salary offered elsewhere.

The congestion in Room 3, grades V and VI in the High School Building is still with us; but it no

longer presents the difficulty which it has presented in the past. The assistance which the apprentices from Framingham Normal School render in their practice teaching enables the regular teacher in that room to handle the problem with greater ease and satisfaction. It is true that the fifty-five children accommodated in that one room are about fifteen too many, even though the regular teacher has the assistance mentioned above.

That extra membership of fifteen children will continue to furnish the peculiar problem of Room 3 until such time as provision is made for accommodating the Fayville children belonging in grades IV, V, VI in an additional room at Fayville.

We are now definitely committed to the eight grade elementary system. Most of the school systems of the State now have eight grades instead of nine below the high school. Desirable as the eight grade elementary system seems, it presents its problems as did the nine grade system, but these problems are of a somewhat different character. The problem of the nine grade elementary system was how to keep the children, especially the boys, from dropping out of school before we could get them entered in the high school. The problem of the eight grade system is how to bring them up to that maturity of mind and scholastic preparation that will enable them to pursue successfully the highly specialized work of the high school. Maturi-

ty, self reliance and persistence are the much needed qualities in the person who is to succeed in the pursuit of high school studies. There is no doubt that many will soon acquire these qualities when the demand upon them is made, but I think we must at the outset become reconciled to the fact that a few, perhaps half of the children who enter high school, will require five years in which to complete a course.

While a lengthening of the time to five years in which a course in high school is to be completed would seem to be the best way in which to solve the problem presented by the entrance of immature pupils upon high school work, considerably different treatment must be accorded to those entering high school somewhat lacking in ability especially in English. To meet the problem presented by this group of children we have already formed, as far as it has been possible with our teaching force, separate classes for those who have shown ability to do strong work in English, and for those who are not able to meet the minimum standard of quality in that subject. In this way the strong will be able to advance at the speed warranted by their ability, while the weak will have the opportunity to do the sort of work in English which is adapted to their particular needs. With a limited teaching force it will, of course, not be possible to go far in this matter of differentiation of work. As above stated we can carry out this plan in the classes in English, which

is the subject in which differentiation is most desirable.

In view of the problem which I have indicated as being the peculiar problem of the eight grade system, I would recommend a slight advance in the age at which children are allowed to enter the first grade of the primary school. The tendency at the present time in towns in which the eight grade elementary system prevails is to advance the entering age. I would say that a rule, admitting to the first grade in September only those children who have, at the time of seeking admission to school, already reached the age of six years, or who are to become six years of age before or during the month of January following, would be reasonable and in line with the present practice in a majority of Massachusetts towns.

It would seem highly desirable for our domestic arts department to handle some sort of a noon luncheon to be sold practically at cost. We have not as yet been able to formulate a working plan for this scheme owing to the difficulty of securing supervision of this work on the three days in each week when the domestic arts teacher is not present. Probably by applying early to the Framingham Normal School for the extension next fall of their apprentice system in the domestic arts department to Peters High School we shall be able to obviate this difficulty as to the supervision of the school lunch counter.

A gratifying increase in the school membership in the new building at Cordaville made it necessary in the early part of the fall term to add a half-dozen new seats and desks in the primary room. With a membership of nearly forty in that room apprentices from the Normal School can be used to very good advantage assisting the regular teacher in supervising the children's seat work and in conducting drill exercises with small groups thus saving the regular teacher's time for the more detailed presentation of new work. I hope to be able this spring to make the necessary arrangements with the Normal School in time to insure the continuous service of apprentices throughout the school year.

The reports of the high school principal, special teachers and medical inspector follow, and I commend these reports to your attention. The usual statistical data are to be found in the tables which follow the special reports. These tables deserve your consideration.

The table showing the names of persons pursuing courses in industrial schools at the Town's expense deserves a careful reading.

In closing I would commend the teachers for the good work they are doing to make the the school life of the children not only profitable, but also wholesome and joyous. I would also praise in the highest terms the janitor work in every building. This ser-

vice may be equalled elsewhere, but I doubt if it can be excelled.

I thank you, Gentlemen of the School Committee, for your courteous cooperation in dealing with the problems which the school system of Southboro every year furnishes.

Respectfully submitted,

FREDERICK B. VAN ORNUM,

Superintendent of Schools.

Northboro, Mass., Jan. 12, 1915.

Report of Principal of Peters High School.

TO THE MEMBERS OF THE SCHOOL COMMITTEE OF
SOUTHBORO, MASS:

GENTLEMEN—The report of the principal of Peters High School is respectfully submitted for the year 1914. The favorable action of your committee in the matter of granting the petition of the high school pupils for a single session during the Spring term enabled the teachers to compare accurately the relative educational efficiency of the one session and the two session plan now in vogue. As a result of our observations we feel that the one session plan is the better for the following reasons: First, from the purely educational standpoint it gives the teacher greater opportunity to extend the necessary aid to delinquent pupils. Second, it affords the many pupils who are obliged to work outside of school hours a greater opportunity for home study. Third, from the standpoint of discipline, by the different arrangement of hours, it eliminates the contact of the younger pupils of the primary and grammar grades with the older pupils of the high school and in this way prevents the unpleasant situations due to the roughness of the older pupils which have become a disciplinary problem. As satisfactory as the one session proved itself to be, neither our present form of double session nor the single session can compare with the length-

ened school day and double session which affords the pupils an opportunity of completing almost all their work within school hours. It is my belief that in the high school of the present day, there is too much mere recitation and not enough carefully supervised study. The acquisition of careful and thorough habits of study and the inculcation of the knowledge of how to use properly the tools of education is to the pupil a more valuable asset than an abundance of mere formal knowledge and miscellaneous information. Under the present regime, the former is neglected, the latter is paramount. Under a lengthened two session program, the acquisition of correct habits of study could be given the attention its importance merits for it, while recitation and the formal knowledge necessarily connected therewith could be relegated to its proper place in the school curriculum.

CHANGE IN THE FORM OF GRADUATION EXERCISES.

A change was made in the usual form of graduation exercises with apparent satisfaction. The valedictory and salutatory, as in former years, were given by the honor pupils and the class selected its historian and prophet. Instead of the usual essays by other members of the class, a speaker was engaged. While the old form of graduation exercises is favored by many people, still it should not be compulsory for every pupil to have a speaking part in the exercises. At the close of school, notice was received from the

State Board of Education and from the New England College Entrance Examination Board that our graduates would be admitted without examination to the Normal Schools and to colleges represented on the New England Board for the school year 1914-1915. The members of the class of 1914 are at present engaged as follows: Attending college, 1; Normal School, 1; Technical School, 1; Business College, 2; Taking Post Graduate Course, 2; At work in a shop, 2; At home, 1.

FALL TERM—GENERAL ORGANIZATION.

The Fall term opened Tuesday Sept. 8th with the following registration.

| | COLLEGE COURSE | COMMERCIAL | GENERAL |
|---------------|----------------|------------|---------|
| Senior | 0 | 0 | 0 |
| Junior | 10 | 2 | 0 |
| Sophomore | 18 | 16 | 4 |
| Freshman | 8 | 6 | 0 |
| Post Graduate | 1 | 1 | 0 |
| Special | 0 | 0 | 1 |
| Total | 37 | 25 | 5 |

It will be observed from the table that there is no Senior class in the high school this year. By way of explanation it may be said that in the Fall of 1912, six pupils entered Freshman Class from the grammar schools. During the past three years, one pupil was obliged to leave school on account of the death of a parent, two withdrew to go to work, one to enter Trade School and one to take an agricultur-

al course at Marlboro. There is one member of the class in attendance at our high school at present.

ORGANIZATION OF SPECIAL CLASSES.

When the ninth grade was abolished one year ago, and the pupils of the eighth grade were allowed to enter high school, it was expected that a certain percentage would not be able to meet our minimum requirements in all prescribed subjects. Indeed, it was understood that only a small number of pupils who were exceptionally strong in scholarship would be able to complete the work in four years. As the greatest weakness of our so called five year pupils manifested itself in their work in English and Arithmetic, special classes were formed in these branches. The through drill in English grammar and Arithmetic which these pupils will receive during the year ought to prove of invaluable assistance to them when the languages and higher forms of mathematics are encountered later in the course.

APPORTIONMENT OF WORK FOR HIGH SCHOOL TEACHERS.

Total number of recitation periods per week 35.

Average length of periods 40 minutes.

| PRINCIPAL | | ASSISTANT PRINCIPAL | |
|----------------------|---|---------------------|---|
| Elementary Science I | 5 | Stenography III | 4 |
| Chemistry III | 6 | Stenography II | 4 |

| | <u>28</u> | | <u>29</u> |

PARENT TEACHERS' ASSOCIATION.

It has become evident to your principal that there is a serious lack of articulation and cooperation between the home and the school, which works to the detriment of the pupil. The average parent has little or no idea of the administrative problems to which the pupils who are deficient either in studies or deportment give rise. This difficulty would undoubtedly be obviated by the formation of an active Parent Teachers Association. The function of this association would be the promotion of the welfare of the pupil, by engendering more cordial relations and a more intimate understanding between the home and the school.

A parent can reveal to a teacher many things concerning a pupil which a teacher would have no means of knowing and which would be of material

help to her in the handling of a pupil. A teacher might be able to reveal to a parent, characteristics of a pupil which were never displayed in home life. Thus such an association would prove of mutual benefit. During the principalship of the present incumbent, interest on the part of parents who should be interested in their children's work has been conspicuous by its absence. The suggested association would undoubtedly remedy this condition. In matters pertaining to discipline, garbled reports of pupils concerning school troubles have been accepted without investigation, and thereby difficulties of administration have been heightened. This, too, would undoubtedly be remedied by the proposed association. Difficulties pertaining purely to scholarship would also come under the domain of its influence. On the whole it seems to be the principle that if the projected Parent Teachers Association is earnestly begun and carried on with a serious purpose, we have nothing to lose and everything to gain.

SCHOOL ACTIVITIES

A girls basketball team was formed at the beginning of the year under faculty supervision and an expert coach was engaged to instruct the players. All out-of-town games will be played in the afternoon and only two of the home games are scheduled to be played at night. On account of the lack of proper material, no boys team was formed. The outlook

for a strong baseball team in the spring is very bright. There were no dances or entertainments held by the pupils between the time of the opening of school and the issuance of this report.

ATTENDANCE.

The percentage of attendance for the Fall term was lower than it has been for the same period of time during the past three years. Most of the absences however, have been confined to a small group of pupils who have been obliged to remain at home on account of illness or work. The faithful and conscientious work of our attendance officer, Mr. F. E. Carpenter is deserving of the highest commendation.

PERCENTAGE OF ATTENDANCE

| | SEPT. | OCT. | NOV. | DEC. |
|------|-------|-------|-------|-------|
| 1910 | 94.4 | 94 | 93 | 90.2 |
| 1911 | 99. | 94.48 | 94.66 | 90.31 |
| 1912 | 98. | 96. | 94. | 98. |
| 1913 | 99.1 | 98. | 98.9 | 98. |
| 1914 | 96.87 | 95.97 | 94.9 | 96.42 |

In closing my report, I wish to thank the superintendent of schools, the school committee and the high school faculty for their cooperation during the year, also Mr. Lowry, the janitor, for extra service rendered to the teachers and pupils on many occasions during the year.

Respectfully submitted,

HENRY J. McSHERRY,

Principal

Report of Teacher of Domestic Arts..

To the Supt. of Schools, Mr. F. B. Van Ornum:

The work in sewing for the past year has been as follows:

Grade 6. This is the beginners' class in sewing. As soon as the stitches were learned on a sampler they were used in making a combination sewing apron and bag. Those girls who had time made petticoats for themselves. This not only reviewed the stitches but gave experience in putting on a band.

Grade 7. Each pupil made a long percale or gingham apron for herself. These were all hand made to give the pupil practice in hand sewing. In addition to her knowledge of sewing of the year before, the pupil learned to make a French seam, a felled seam, buttonholes and how to turn and baste a hem on a gored garment. In this grade they learned how to stitch on the sewing machine.

Grade 8. In this grade each girl made a uniform for cooking which consists of a muslin cap, white apron with long sleeves, towel and holder. By making these things the girls had practice in using the sewing machine, how to put on a plain cuff and to put in a gathered sleeve besides a review of buttonholes. On their towels they learned to make a Damask hem. Each girl cut out her own apron from a paper pattern.

Ist. year of High School. These girls began a set of underwear. These articles are cut by the pupil, made for the most part by machine and give knowledge of plackets of different kinds, facings, ways of sewing on trimmings.

Second year High School. Some girls finished sets of underwear which were begun the year before and nearly everyone cut and made a wash dress. They did some work in making over dresses and a small amount of work on simple coats.

In all the classes the cost of material is discussed and compared with ready made garments of the same price.

The work in cooking for the first year of High school has been the preparation of soups, beverages, baking powder biscuits, raised bread, gingerbread, cereal, cookies, eggs, custards, cake, candy, meat, fish, gelatine, ice cream, uses of stale bread, vegetables.

These girls had lessons on table setting and serving. They also learned how to scour knives, polish brass etc. and to build and take care of a fire.

During the second year of High School the same general outline of work is followed as during the first year. More time is spent on composition and costs of food so that the pupil may have more knowledge in planning meals. More time is also devoted to preparation and serving of meals.

We hope during the present year to have two

girls, each day during the last term, actually prepare and serve meals for four or six people in a given length of time and within a certain allowance of money.

Respectfully submitted,

MARTHA TOWER.

Report of Teacher of Manual Training.

To Mr. F. B. Van Ornum, Superintendent of Schools, Southborough.

The work in Manual Training during the past year has been along the same lines as in former years, with more time given to individual needs. The boys were given an opportunity to make many articles to supply their personal wants. They also co-operated with the Chemistry and Physics Departments by making several pieces of apparatus and furnishings for the laboratory. A small play-house was built and furnished for the primary grades at Fayville.

A variety of work was shown at the exhibition in June.

The following articles were some made by the boys of the grades designated:

| Sixth Grade | Seventh Grade | Eighth Grade |
|------------------|--------------------|--------------------|
| pencil-sharpener | coat and hat rack | whisk-broom holder |
| match-striker | bread-board | bird-house |
| clothes-stick | watch-holder | towel-rack |
| boxes | knife and fork box | sleeve-board |
| string-winder | candle stick | weather vane |
| toys | whisk-broom holder | plant-stand |
| | boxes | boxes |
| | toys | letter rack |
| | | picture frame |

First Year High School

pen tray
blotter-pad, pen-holder
stationery-holder, stamp box
coat and trouser hanger
foot-stool, boxes
boot black stand
electric lamp
library table
study table
book-case
furniture

Second Year High School

Lathe work
mallet, chisel-handle
card tray, bowl
rolling pin
candle-stick
Indian clubs
stocking-darner
napkin-ring
smoker's stand
collar button box
tea pot stand
electric lamp
furniture

Several playthings and articles of furniture were repaired.

I would suggest that the three lathes now in the centre of the room be turned around and moved closer to the windows and that the counter-shafts be taken from the head of these lathes and hung as the others are. It would give better light to the lathe-workers and much vibration would be done away with.

Respectfully submitted,

J. AUGUSTUS PRENDIVILLE.

Report of Medical Inspector.

That the progress made in the medical inspection of schools may be shown, it is necessary to take into consideration not only the present year, but also the results of the previous year which are now showing.

In 1913 and 1914, a more systematic and persistent effort was made to not only discover, but to discriminate upon, such conditions discovered, and follow up those which were of significance until some action was taken by the parents.

To do this required a more complete examination, with a record of each pupil, showing not only any abnormal condition, but condition as a whole, and any peculiarities either mental or otherwise, noticed at the time of examination or observed by the teachers.

There being no data of this kind at hand, and the following up system, allowing me to so call it, being entirely new, it required the assistance of a clerk to make records at the time of examination, and a trained nurse whose attention was called to the various factors as they were noticed, and who afterwards went to the parents explaining to them what had been found, and the importance of having the condition properly attended to.

After the first visit, a report was made to the medical inspector, and when possible, suggestions were offered

that might assist in bringing about some action, if, upon the second visit which was made between three and four weeks later, such had not been resorted to.

The strongest factor that showed itself as a result of these visits was the interest manifested by parents who freely questioned the nurse, not only in regard to the particular matter of her visit, but upon the general care and hygienic factors of everyday life pertaining to their children and proved their interest by their punctual action in having their children properly cared for.

This I would refer to in comparison with the method of sending either letter, or printed form, which had previously been done and, to which, scarcely any attention had been paid, either because, as one parent expressed it, "it does not amount to anything," or because there seemed to be no one who took any particular interest, or at least enough, to care whether anything was done or not.

There was one other condition which showed itself very strongly with the after visits, and that was, the better feeling shown by parents whose families were cared for during illness by other medical attendance, than the medical inspector of schools. There can be no doubt, we are most of us inclined to be either pro or con, in matters of this kind, and it is difficult to have other than a more or less antagonistic feeling when some other than our choice in the matter, examines and attempts to direct in any way the health of our children. The work of the nurse seemed to be a specific in this matter; her neutral position at all times, and her willingness to assist and, in any way, be of service, seemed a stimulus to the desired end.

Aside from minor ailments, all of which were quickly corrected, and a few conditons requiring prolonged treatment of specialists, which I am pleased to state at the last time of being informed, were under such care, the four most marked conditions discovered among the school attendance and which needed professional attention were enlarged tonsils; adenoid growths; fallen arches, otherwise known as flat feet, and caries of the teeth. Not all parents whose children had these conditions were advised to consult their physician regarding them only those being notified whose children gave a history of repeated throat troubles, persistant nasal irritations, deformity of the feet, or ankles, or both, from the conditon of the arches, and these taken in conjunction with the condition of the parts affected as well as any information regarding the child, the teacher could give.

As an explanation of the discrimination, it may be well for me to state that the present trend of physicians is to treat those conditions only when there is some other reason than the mere knowledge that they exist, in other words, unless some harm has been, is now, or at some future time, threatens to result from them, medical or surgical interference is not indicated, and I say this in contra distinction to a minority who still hold to the view of doing something whether you have reason or not.

In the year of 1913 and 1914 there were twenty-nine families visited, to whom were reported as follows:

Sixteen cases of enlarged tonsils.

Eighteen cases of adenoids.

Nineteen cases of fallen arches.

Twenty-two cases of caries of the teeth.

The present years inspection shows that eleven cases of tonsils; eight cases of adenoids; twelve cases of fallen arches and thirteen cases of caries of the teeth were properly attended to. This, I want to say, is an exceptionally high percentage, due, in a great measure, to the following up idea by a nurse.

The present year shows:

Twelve cases of enlarged tonsils.

Sixteen cases of adenoids.

Twelve cases of fallen arches.

Twenty cases of caries of the teeth.

The parents of these children have all been notified by blank form provided for the purpose.

It is with regret that the medical inspector reports the loss of the services of the nurse this year, feeling that her part of the work is of the greatest value in getting

the best results, and strongly urges that the school committee may see a way, either by additional appropriation or otherwise, to again have such service as a part of the school inspection.

I wish to thank the superintendent, school committee and teachers, for their aid, and assure them of my appreciation of the same.

Very respectfully,

J. LOWELL BACON,

Medical Inspector of Schools.

STATISTICS.

TABLE 1.

SCHOOL YEAR ENDING JUNE 30, 1914.

SCHOOL SUPPORT

| | |

| Total cost per pupil based on average membership, | \$48 54 |
| Cost to Town per pupil based on average membership, | \$37 89 |
| Total cost per pupil based on average membership in Massachusetts towns having a population of less than 5000, for the year ending June 30, 1913, | \$38 76 |
| The same for the State same year, | \$40 41 |
| Percentage of increase in cost in the Town over the cost in the Town for the previous year. | $\frac{1}{5}$ of 1% |
| Percentage of increase in cost in the State over the cost in the State for the previous year, | 8% |

TABLE 2.

Showing relative distribution of cost for support of schools among the items indicated and the per pupil cost of the same items for year ending June 30, 1914.

| | Per cent of total cost of the schools | Per pupil cost |
|--|---|-------------------|
| General Control; | | |
| Salaries of School Committee and Supt. of Schools, etc. | 5.6 | \$ 2 78 |
| Instruction; | | |
| Teachers' salaries | 53.7 | \$26 11 |
| Text books and supplies | 5.2 | \$ 2 54 |
| Operating expenses; | | |
| Janitor service and janitors' supplies | 10.4 | \$ 5 06 |
| Fuel | 7.7 | \$ 3 42 |
| Maintenance; repairs | 1.3 | \$ 64 |
| Transportation; | 13.7 | \$ 6 74 |
| Promotion of health and miscellaneous expenses | 2.4 | \$ 1 23 |

Note—Total cost of the schools as shown in Table 1, and average membership for same year were used as bases in obtaining the figures in this table.

SCHOOL CENSUS, SEPT. 1914.

TABLE 3.

| | |
|---|-----|
| Number of persons in town between the ages of 5 and 7 years; boys 30, girls 32. Total, | 62 |
| Number of persons in town between the ages of 7 and 14 years; boys 97, girls 107. Total. | 204 |
| Number of persons in town between the ages of 14 and 16 years; boys 26, girls 20. Total, | 46 |
| There is no illiterate minor in town over 14 years of age. | |
